Strange, wondrous things happen in these two short stories, which are both the perfect introduction to Gabriel García Márquez, and a wonderful read for anyone who loves the magic and marvels of his novels. After days of rain, a couple find an old man with huge wings in their courtyard in 'A Very Old Man with Enormous Wings' - but is he an angel? Accompanying 'A Very Old Man with Enormous Wings' is the short story 'The Sea of Lost Time', in which a seaside town is brought back to life by a curious smell of roses.

This report reviews engineering's importance to human, economic, social and cultural development and in addressing the UN Millennium Development Goals. Engineering tends to be viewed as a national issue, but engineering knowledge, companies, conferences and journals, all demonstrate that it is as international as

science. The report reviews the role of engineering in development, and covers issues including poverty reduction, sustainable development, climate change mitigation and adaptation. It presents the various fields of engineering around the world and is intended to identify issues and challenges facing engineering, promote better understanding of engineering and its role, and highlight ways of making engineering more attractive to young people, especially women.--Publisher's description.

Cet ouvrage est une édition complètement révisée, recomposée et très agrandie de la seconde partie du HARRAP'S STANDARD FRENCH AND ENGLISH DICTIONARY rédigé par J.E. Mansion. Publié il y a plus de quarante ans, le STANDARD DICTIONARY a acquis depuis lors une réputation hors pair comme le meilleur des dictionnaires bilingues. Bien que depuis 1950 trois suppléments aient paru pour mettre l'ouvrage à jour, l'évolution rapide et continue des deux langues et la publication de l'édition révisée de la partie français-anglais en 1972 ont rendu absolument nécessaire la publication d'une édition totalement nouvelle de la partie anglais-français. Les troisième et quatrième volumes qui forment la seconde partie du HARRAP'S STANDARD FRENCH AND ENGLISH DICTIONARY représentent plus de trente ans de recherche par M. René Ledésert, licencié-ès Lettres, licencié en Droit, et son épouse Margaret Ledésert, M.A., et toute une équipe de collaborateurs dans le monde entier. Le résultat de ce travail a été non seulement une révision intégrale des anciens articles par rapport à l'ouvrage original, mais aussi l'inclusion d'environ 60 pour cent de texte supplémentaire. Une majeure partie de ce nouveau texte tient compte en particulier des développements techniques et scientifiques, y compris dans les domaines aussi modernes que les sciences atomiques, les voyages intersidéraux et l'informatique, sans négliger les mots nouveaux des industries tels que l'aviation, l'automobile et le génie civil. Les sciences naturelles, l'économie et le monde financier figurent également au premier plan, et aucun effort n'a été épargné pour introduire un nombre considérable d'idiotismes et d'expressions familières ou argotiques. Un des caractères unique de cet ouvrage est l'inclusion de mots et expressions usités aux Etats-Unis et au Canada, ainsi qu'un certain nombre d'expressions courantes dans d'autres pays anglophones et francophones. Plusieurs changements ont été effectués en ce qui concerne le format et la disposition typographique, notamment la présentation en trois colonnes par page, qui permettent à l'utilisateur de consulter ce dictionnaire avec beaucoup plus de facilité que le dictionnaire original.
