While the European Convention on Human Rights does not guarantee a specific right to a healthy and sound environment, the general standards deriving from it may nonetheless also apply to environmental matters. The European Court of Human Rights regularly examines complaints in which individuals argue that a breach of their Convention rights is the result of adverse environmental factors. This manual also takes account of the relevant decisions of the European Committee of Social Rights which has interpreted the right to protection of health under the European Social Charter as including a right to a healthy environment. Imagine some obscure bar. Imagine light bulbs going back and forth above tables filled with empty glasses. Imagine men with perfect haircuts begging beautiful women for a long, sensuous dance, and end up with Room Eleven. Or, with as much ease, imagine that final holiday night in which seductive glances have their last shot and a lonely mosquito gets lost in the blazing campfire. The list of atmospheric sketches one can come up with is endless, but as long as they sway back and forth between melancholic, summery, seductive and fiery, they are accurate. So, imagine Room Eleven, a band that came into existence because of a simple note pinned on a notice board at the Conservatorium in Utrecht. With their 2006 debut album Six White Russians And A Pink Pussycat, they have managed to impress an increasingly bigger audience with a catchy mixture of jazz, pop, funk, blues and a touch of folk. Whether a strict jazz lover or a young pop fan, in the end you will be won over by the their incredible stage presence. Not only music fans have come to appreciate the band, Room Eleven has also managed to convince the press. Their debut album has received much critical acclaim. One magazine poetically described Janne Schra's voice as 'a juicy green meadow, just after sunset, covered in fresh dew.' As one radio DJ put it: 'She seduces you, moves you and makes you happy, all in one sentence.'
