At work, August's new job as a firefighter brings opportunity to model for a beefcake calendar. At home, a no strings hookup becomes a regular thing. The new man in August's life calls himself

Memo. He eventually explains it's a nickname for Guillermo, and with that also reveals something a little bit shocking. When August is excluded from the calendar for reasons objectionable to some, word spreads throughout the town, and the community becomes divided. Memo says he can't take sides, which bothers August. August's work partner Tasha has his back. Why can't the man in his life? Things are bumpy for the pair and the town, but when something more sinister happens, it not only puts the calendar debate in perspective, it also puts August and his fellow firefighters' lives in danger. "The most all-encompassing work on the subject to be published in many years, The American Clock is certain to become a standard reference work in this important and ever-growing field of collecting. The book is not intended to be a history of clockmaking in America; instead, its purpose is to collect into one volume a very large number of significant clocks of all types so that collectors will have a substantial pictorial reference with which to compare their own acquisitions and to extend their knowledge of the field. Compiled by William H. Distin, a well-know authority on clock who is a fellow and former Director of the National Association of Watch and Clock Collectors, this 360-page book presents almost 700 black-and-white illustrations, 84 color plates, a 65--page listing of 6153 American clockmakers, and a glossary of clock terms. Also, over 100 of the photographs show close-ups of the dials and works of many different clocks. Of special interest is the fact that most of the clocks assembled in this volume are published in this book for the first time--for the majority of them have been photographed from private collections. The illustrations are divided into the following main categories: Tower Clocks, Tall Case Clocks, Dwarf Tall Case Clocks, Bracket Clocks, Massachusetts Shelf Clocks, Lighthouse Clocks, Shelf Clocks, Novelty Clocks, Tools, and Wall Clocks. The index lists the clockmakers alphabetically, with the clocks illustrated arranged under the name of each maker. In every respect The American Clock is a most impressive and handsome production that will prove highly useful for years to come to all collectors and students in the field." -- Provided by publisher

In the rugged Pacific Northwest of the United States lies the Olympic National Forest – a vast expanse of impenetrable darkness and impossible beauty. From deep within this mysterious woodland, a six-year-old girl appears. Speechless and alone, she offers no clue as to her identity, no hint of her past. Having retreated to her hometown after a scandal left her career in ruins, child psychiatrist Dr Julia Cates begins working with the extraordinary little girl. Naming her Alice, Julia is determined to free her from a prison of unimaginable fear and isolation, and discover the truth about Alice's past.
