There is no bigger issue for healthy infants than sleeping through the night. In this simple, straightforward book, Suzy Giordano presents her amazingly effective "Limited- Crying Solution" that will get any baby to sleep for twelve hours at night—and three hours in the day—by the age of twelve weeks old. Giordano is the mother of five children and one of the most sought-after baby sleep specialists in the country. The Washington Post calls her a baby sleep "guru" and "an underground legend in the Washington area for her ability to teach newborns how to achieve that parenting nirvana: sleeping through the night." Her sleep plan has been tested with singletons, twins, triplets, babies with special needs, and colicky babies—and it has never failed. Whether you are pregnant, first-time parents, or parents who seek a different path with your second or third child, anyone can benefit from the Baby Coach's popular system of regular feeding times, twelve hours of sleep at night and three hours of sleep during the day, and the peace of mind that comes with taking the parent and child out of a sleep-deprived world.

This newly revised and updated companion study guide to the 2019 edition of the New York Times bestseller *Getting the Love You Want*. In 1988, Harville Hendrix, in partnership with his wife, Helen LaKelly Hunt, published a terrifically successful relationship guide called *Getting the Love You Want*. Now, more than a decade later, this companion book picks up where its predecessor left off, delving further into relationship therapy to help transform relationships into lasting sources of love and companionship. The *Getting the Love You Want Workbook* is designed for the hundreds of thousands of couples who have attended Imago workshops since *Getting the Love You Want* hit bookstands, as well as new and curious ones seeking a practical route back to intimacy and passionate friendship. The workbook contains a unique twelve-week course (The New Couples' Study Guide) designed to help work through the exercises published in Part III of *Getting the Love You Want*. For those of us struggling to maintain our most precious relationships, the *Getting the Love You Want Workbook* helps us grow aware of our individual, unconscious agenda while steering us towards a more harmonious link with our loved ones that will satisfy our deepest needs.

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic

socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

This dystopian classic is 'exciting, relevant and thought-provoking' (Stephen King). When a group of schoolboys are stranded on a desert island, what could go wrong? 'There is a reason why this is studied at school ... Excellent read.' 'This is one of the few books I've read that I keep on my Kindle to read again.' Lines may divide us, but hope will unite us. Nine year old Bruno knows nothing of the Final Solution and the Holocaust. He's oblivious to the appalling cruelties being inflicted on the people of Europe by his country. All he knows is that he has moved from Berlin to a desolate area where he has no one to play with. Until he meets Shmuel. Shmuel lives in a strange parallel existence on the

other side of the adjoining wire fence, where everyone wears a uniform of striped pyjamas. Despite the wire fence separating them, the two boys become best friends. As they grow closer, Bruno starts to learn the terrible truth that lies beyond the fence, and what life is like for his friend. John Boyne's classic novel explores the friendship and loss of innocence of Bruno and Shmuel, during one of the worst points in history.

The *Knowing the Bible* series is a resource designed to help Bible readers better understand and apply God's Word. These 12-week studies lead participants through books of the Bible and are made up of four basic components: (1) reflection questions help readers engage the text at a deeper level; (2) "Gospel Glimpses" highlight the gospel of grace throughout the book; (3) "Whole-Bible Connections" show how any given passage connects to the Bible's overarching story of redemption, culminating in Christ; and (4) "Theological Soundings" identify how historic orthodox doctrines are taught or reinforced throughout Scripture. With contributions from an array of influential pastors and church leaders, these gospel-centered studies will help Christians see and cherish the message of God's grace on every page of the Bible. The letter to the Ephesians is a source of great encouragement, clearly proclaiming the mystery of the gospel and the supremacy of Jesus while applying that theology to practical living. Made alive in Christ, believers have received a bountiful inheritance and lavish blessings from God, fueling us for holy living. In this study, Eric Redmond opens our eyes to Paul's teaching about God's astonishing grace—grace that enables us to walk in love, holiness, and wisdom as we become imitators of Christ.

I am so excited to share this project that I have been working on! This study walks through the book of Genesis, chapter by chapter. It is for anyone that has ever wanted to read the Bible and truly understand it better. The *Genesis Study* is for everyone that has started to read through the Bible and felt overwhelmed. From Genesis to Revelation the Bible tells us the story of redemption. It reminds us of who we are and teaches us of the God who has pursued us from the beginning of time. Despite all the times we have failed-He has remained Faithful. In the first pages of Genesis we see the promise of the Redeemer that would come and make everything right. His name is Jesus, and He changes everything. The Bible is the story of our redemption. This is a story unlike any other. This is the story of Jesus. This is the story of God and the love He has for His people.

Decades of research have demonstrated that the parent-child dyad and the environment of the family—“which includes all primary caregivers”—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective

with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

In *The Innovator's DNA*, authors Jeffrey Dyer, Hal Gregersen, and bestselling author Clayton Christensen (*The Innovator's Dilemma*, *The Innovator's Solution*, *How Will You Measure Your Life?*) build on what we know about disruptive innovation to show how individuals can develop the skills necessary to move progressively from idea to impact.
