In *The Wild Irish Girl*, the powerful Irish heroine's marriage to a heroic Englishman symbolizes the Anglo-Irish novelist Lady Morgan's re-imagining of the relationship between Ireland and Britain and between men and women. Using this most influential of pro-union novels as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps out the genealogy of this development, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s. Tracy's model enables him to elaborate the ways in which gender ideals are specifically contested in fiction, the discourses of political debate and social reform, and the popular press, for the purpose of defining not only the place of the Irish in the union with Great Britain, but the nature of Britishness itself.

This collection is a resource for studying the history of the evolving technologies that have contributed to snowmobiles becoming cleaner and quieter machines. Papers address design for a snowmobile using the EPA test procedure and standard for off-road vehicles, along with more stringent U.S. National Park Best Available Technology (BAT) standards that are likened to those of the California Air Resourced Board (CARB). Innovative technology solutions include:

- Standard application for diesel engine designs
- Applications to address and test both engine and track noise
- Benefits of the Miller cycle and turbocharging

The SAE International Clean Snowmobile Challenge (CSC) program is an engineering design competition. The program provides undergraduate and graduate students the opportunity to enhance their engineering design and project management skills by reengineering a snowmobile to reduce emissions and noise. The competition includes internal combustion engine categories that address both gasoline and diesel, as well as the zero emissions category in which range and draw bar performance are measured. The goal of the competition is designing a cleaner and quieter snowmobile. The competitors' modified snowmobiles are also expected to be cost-effective and comfortable for the operator to drive.

Although a part of the series, this book can be read as a STANDALONE romance. WARNING: This is a fictional romance story that transports you to a different world that has no restraints or boundaries. Please proceed with caution as the book contains graphic violence and sexual content that is recommended for mature reading audiences with an open mind only! EXCERPT: "Turn around and look at me." The order was thrown in a chillingly calm tone. Trembling and worried about the consequences, Anika slowly turned, and raised her eyes toward the man in front of her. Her vision was still blurry from the residual moisture. She wiped her tears away and was met with

the sight of the broad back of a tall man. He was turned away from her as he closed the door shut. Stepping back, she wrapped her arms around her protectively. She kept her wary eyes trained on his back, waiting for what, she didn't know. As soon as he turned, she felt like the air was sucked away from around them, making her gasp out loud. The man looked larger than life, and more importantly, he looked like he could easily kill her with a single blow. His eyes scanned the mess she had made in the room, before he turned to look at her face dispassionately. She expected to see anger, but there was none. He didn't say anything for a long moment, just kept his eyes firmly locked on her face. After an indeterminate amount of time, he broke the deafening silence. "So. You are my bride-to-be," he stated rather than ask in a deep voice. After an indeterminate amount of time, he broke the deafening silence. "So. You are my bride-to-be," he stated rather than ask in a deep voice. The word 'bride' broke through her trance and made adrenaline course through her body. God, this is so messed up. Why am I cowering in fear? "I don't want this," she whispered, unable to work up a louder voice. She kept her eyes on his face, pleading. "Please stop this marriage." He didn't respond, and neither did he react. "I don't want this wedding," she repeated. "We can think of another solution. We should be able to come up with a reasonable..." her voice trailed off when she saw him compressing his lips into a thin, hard line as he began to walk toward her. Through trembling lips, she spoke again. "I'm not from your world. I don't belong here. Let me go back to my family," she reasoned. The man stopped in front of her until he was too close for comfort. His eyes were riveted on her face as his mouth stretched into a sneer full of hate and loathe. "We are getting married because your precious family has begged me to do so. So, if you or your fucking family tries to pull any stunt during our wedding today, and try to back out, I'm not going to spare anyone." He spat out the words 'your family' like they were a curse. Slowly and deliberately his eyes swept over her body clothed in traditional bridal attire. "Nothing and no one—including you—can stop this from happening. You will become my wife by tonight," he vowed. Listening to those words, her legs gave out from under her, and she collapsed on her knees unable to swallow the defeat. How could she let herself be trapped in this hellhole? Because of her one impulsive decision, she was going to lose everything.

Modern Freemasonry in the United States and Great Britain celebrates its 300th anniversary in 2017 tracing its direct history from the Grand Lodge of England founded in 1717. This text is intended to provide a theory of origin for the Fraternity. It is based on available sources, many of which are not Masonic in nature, but cover the disciplines of history, religion, ethics, economics, politics, and labor development. The book begins with an overview of how the Fraternity initiated members in the seventeenth and early eighteenth centuries, and includes the ancient Legend of Noah. It then reviews how history is written and exams the utilization of Biblical and legendary accounts in the development of a country's, peoples', or organization's history. The text moves on to the transition from craft guild to fraternal organization and gives the full text of Freemasonry's four oldest documents: Regius Poem, Cooke Manuscript, Graham Manuscript, and Schaw Statutes. This is followed by a description of the London Masons' Company based on the assumption that this city-wide organization of craftsmen chartered in 1481 may have been the administrative precursor of the Grand Lodge of England. The author then reviews the demise of craft guilds and the rise of fraternal societies in the seventeenth and eighteenth centuries. Additional chapters review the Masonic approach to ritual, education, and ethical decision making. The text closes with a discussion of the philosophy of Freemasonry as well as comments and suggestions regarding Freemasonry's future. The last chapter is a Scottish Charge appropriate to all men, not just Freemasons.

R. F. Delderfield concludes his bestselling *A Horseman Riding By* saga of twentieth-century England with a novel that follows the Craddock family through the end of World War II and the challenges of a new era. Paul Craddock's village in rural Devon has endured despite the heartbreak and sorrows of war. The landowner and his family have also known their share of loss. But now, as England struggles to rebuild in the aftermath of World War II, he and his wife, Claire, and their children confront new perils. With his livelihood threatened by emerging property laws and his family divided over the future of his beloved Shallowford estate, Craddock struggles to preserve his legacy. For his sons and daughter, the fifties and sixties will be a time of discovery and change that will resonate in the lives of their own children. The final novel in Delderfield's magnificent trilogy pays tribute to the courage and unflagging optimism of British villagers trying to keep step with modern times even as they cling to the traditions of a bygone world. *The Green Gauntlet* is the third novel in R. This edited collection applies kinship as an analytical concept to better understand the affective economies, discursive practices, and aesthetic dimensions through which cultural narratives of belonging establish a sense of intimacy and affiliation. In North American and European ethnic literatures, kinship has several social functions: negotiating diasporic belonging in and outside of the perimeters of bloodlines and genealogy; positioning queer-feminist interventions to counter ethno-nationalist narratives of belonging; challenging liberal sentimentalist narratives, such as those grafted onto the bodies of transnational adoptees; re-formulating cultural heterogeneity through interracial and interethnic kinship constellations outside either post-racial assumptions about colorblindness or celebrations of racial and ethnic pluralism. In all of these cases, kinship features as a common theme through which contemporary authors attend to challenges of conscribing individuals into inclusive, counter-hegemonic cultural narratives of belonging.

Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of 'undoing violence' by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.
