33SNF6 - TESSA MOONEY

Policing the Borders Within offers an in-depth, comprehensive exploration of the everyday working of inland border controls in Britain, informed by extensive empirical material viewed through the lens of wide-ranging interdisciplinary debates. In particular, this book examines afresh the relationship between policing, borders, and social order, in terms of migration policing. By charting this new landscape of everyday contemporary policing, this book's main goal is to advance understanding of novel forms of law enforcement in a global age. These new forms of collaboration direct attention to the way in which frontline enforcement agents, through their everyday work, not only enforce the border, but recreate it. As the book argues, the emphasis on borders and migration controls and the growing importance of it within inland policing is a symptom of the new demands and challenges facing the state in exercising authority in a fast-moving, interconnected world, and its attempt to offer a semblance of order. Such challenges result in practice of random, capricious, informal, and arbitrary operation of power, which relies on non-rational elements to solve policing problems. Through an ethnography of the worlds of police and immigration officers, this book dissects the ethical, political, legal, and social dilemmas, and explores the tensions and contradictions of maintaining order in a deeply unequal globalized world. The new impetus to police migration is an insightful entry point to understand law enforcement in a global age.

Shichor (criminal justice, California State U., San Bernardino) offers a review of the literature on privatization of prisons, of interest to researchers, policymakers, correctional officers, and advanced students. He raises fundamental questions about the functions of state and government, the limits of civil liberties, and the relevance of a util.

This volume focuses on the complex relation between offending and the transition from school to the workplace: how employment and education are related to breaking the law and getting in contact with the criminal justice system. The contributors report results from several large scale and sophisticated studies conducted in the Netherlands that gathered rich data on employment, education and criminal behaviour. Each of the studies focuses on a particular period during the life course and particular risk categories. Taken together, they contribute to our understanding of how getting out of school, getting into a job and doing illegal things are intertwined over the life-course, and how these relations differ with age and gender. The background of this volume is our interest in the often-studied relation between offending and employment, or more generally, between offending and the transition from school to work, including dropping out, part-time work and joblessness. The available literature casts little doubt that employment and education are indeed related to less crime and offending. However, this relation is much more complex than it appears at first hand. The volume is primarily aimed at researchers and students in the fields of criminology, sociology and economics. However, it may also be of use for non-academic professionals, in particular policy makers and practitioners in the field of criminal justice, probation/rehabilitation, and youth/schools.

A good introduction to crime types and criminology to provide students with a grounding to the start of their studies.

William S. Tregoe makes prisoners' stories come alive with eighty prisoner essays integrated in informational chapters tracing shifts in criminality, the U.S. prison build up, and inner cities. The chapters review criminological theories through case studies of prisoners' own insights on their lives at the individual, family, and community levels.

Ideal for undergraduate or graduate-level courses, *Research Methods for Criminology and Criminal Justice, Fourth Edition* introduces students to the functions of criminal justice research including basic ideas behind scientific theory, research language, and research design.

The editors, Rosemary Gartner and Bill McCarthy, have assembled a diverse cast of criminologists, historians, legal scholars, psychologists, and sociologists from a number of countries to discuss key concepts and debates central to the field. The Handbook includes examinations of the historical and contemporary patterns of women's and men's involvement in crime; as well as biological, psychological, and social science perspectives on gender, sex, and crimi-

nal activity. Several essays discuss the ways in which sex and gender influence legal and popular reactions to crime. An important theme throughout The Handbook is the intersection of sex and gender with ethnicity, class, age, peer groups, and community as influences on crime and justice. Individual chapters investigate both conventional topics - such as domestic abuse and sexual violence - and topics that have only recently drawn the attention of scholars - such as human trafficking, honor killing, gender violence during war, state rape, and genocide.

What is the role and value of criminology in a democratic society? How do, and how should, its practitioners engage with politics and public policy? How can criminology find a voice in an agitated, insecure and intensely mediated world in which crime and punishment loom large in government agendas and public discourse? What collective good do we want criminological enquiry to promote? In addressing these questions, Ian Loader and Richard Sparks offer a sociological account of how criminologists understand their craft and position themselves in relation to social and political controversies about crime, whether as scientific experts, policy advisors, governmental players, social movement theorists, or lonely prophets. They examine the conditions under which these diverse commitments and affiliations arose, and gained or lost credibility and influence. This forms the basis for a timely articulation of the idea that criminology's overarching public purpose is to contribute to a better politics of crime and its regulation. Public Criminology? offers an original and provocative account of the condition of, and prospects for, criminology which will be of interest not only to those who work in the fields of crime, security and punishment, but to anyone interested in the vexed relationship between social science, public policy and politics.

Endorsed by WJEC/Eduqas, this revised edition of the best-selling Student Book offers high quality support you can trust. While there is no easy way to define terrorism, it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear, demoralization, and political friction in the population under attack. At one time a marginal field of study in the social sciences, terrorism is now very much in center stage. The 1970s terrorist attacks by the PLO, the Provisional Irish Republican Army, the Popular Front for the Liberation of Palestine, the Japanese Red Army, the Unabomber, Aum Shinrikyo, Timothy McVeigh, the World Trade Center attacks, the assault on a school in Russia, and suicide bombers have all made the term terrorism an all-too-common part of our vocabulary. This edition of *Political Terrorism* was originally published in the 1980s, well before some of the horrific events noted above. This monumental collection of definitions, conceptual frameworks, paradigmatic formulations, and bibliographic sources is being reissued in paperback now as a

resource for the expanding community of researchers on the subject of terrorism. This is a carefully constructed guide to one of the most urgent issues of the world today. When the first edition was originally published, Choice noted, This extremely useful reference tool should be part of any serious social science collection. *Chronicles of Culture* called it a tremendously comprehensive book about a subject that any who have anything to lose--from property to liberty, life to limbs--should be forewarned against.

"On the origin of Mind" is a detailed description of how the mind works. It explains the dynamics from the neuronal level upwards to the scale of group behaviour, society and culture."--Publisher's website.

Transforming Social Work Practice shows that postmodern theory offers new strategies for social workers concerned with political action and social justice. It explores ways of developing practice frameworks, paradigms and principles which take advantage of the perspectives offered by postmodern theory without totally abandoning the values of modernity and the Enlightenment project of human emancipation. Case studies demonstrate how these perspectives can be applied to practice.

This book is an in-depth, evidence-based guide to interviewing suspects with specific vulnerabilities. It provides an overview of current research, practices, and legal considerations for interviewing vulnerable suspects, incorporating guidelines regarding the identification of vulnerabilities, engaging with third parties in the interview, and training and supervision. It then goes on to cover specific vulnerabilities typically encountered in suspect populations, providing clear summaries of current research, case studies, and practical guidance for conducting interviews with these populations to facilitate best practice in interviewing. Expertise is drawn from both law enforcement practice and academic research to ensure an evidence-based approach that is relevant for contemporary practice. *Interviewing Vulnerable Suspects* offers the international policing audience a practical guide to interviewing vulnerable suspects for both uniform police and detectives. It is relevant for statutory bodies involved in investigations of misconduct; legal practitioners and forensic psychologists; practitioners in counselling, social work, and psychology; and students in policing, criminology, and forensic psychology programs.

'The Oxford Handbook of Behavioral Economics and Law' brings together leading scholars of law, psychology, and economics to provide an up-to-date and comprehensive analysis of this field of research, including its strengths and limitations as well as a forecast of its future development. Its twenty-nine chapters are organized into four parts.

Offering a rich introduction to how scholars analyze crime, *Criminological Theory: Context and Consequences* moves readers beyond a commonsense knowledge of crime to a deeper understanding of the importance of theory in shaping crime control policies. The Sixth Edition of the authors' clear, accessible, and thoroughly revised text covers traditional and contemporary theory within a larger sociological and historical context. J. Robert Lilly, Francis T. Cullen, and Richard A. Ball include new sources that assess the empirical status of the major theories, as well as updated coverage of crime control policies and their connection to criminological theory.

"An international abstracting service covering etiology of crime and juvenile delinquency, the control and treatment of offenders, criminal procedures and the administration of justice." Abstracts of journal articles and monographs. Covermaterial from psychiatric literature as well as from criminological sources.

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name *The International Behavioural and Social Sciences Library: Classics from the Tavistock Press*. Reproduced here in facsimile, this volume was originally published in 1964 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

From choosing the right topic to proofreading their finished work, *RESEARCH PAPERS, 16e* helps students confidently tackle the process of creating a successful research paper, one step at a time. Featuring straightforward, step-by-step descriptions--each of which is supported by current examples and hands-on exercises--this edition offers today's students an unparalleled writing resource. In keeping with the authors' commitment to providing the most user-friendly and up-to-date writing manual on the market, students will also find the very latest information on documenta-

tion styles, including the 2009 MLA and 2010 APA updates, plagiarism, and online research, all contained within a convenient large format and easy-to-use spiral binding. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Dealing with the complex case law concerning the use of the provocation defence in cases of intimate killings, Sex, Culpability and the Defence of Provocation considers the construction and representation of subjectivity and sexual difference in legal narrations of homicide.

The Handbook of Asian Criminology aims to be a key reference for international scholars with an interest in the broad theme of international criminology in general, and the Asian region in particular. Contextualization is a key theme in this book. The role of context is often underemphasized in international criminology, so the Handbook of Asian Criminology's premise that crime and the responses to it are best understood as deeply embedded in the cultural specificity of the environment which produces them will play a key role throughout the work. Attention will be given to country- and region specific attitudes towards crime and punishment.

Rehabilitating and Resettling Offenders in the Community is a significant examination of the historical development of work with offenders and their treatment by the state and society. It offers unique perspectives and a wealth of information drawn from numerous interviews with probation staff. Highlights how the work of probation staff has changed overtime and the reasons behind these changes. Includes discourse with probation staff carried out over many years for a comprehensive, 'insiders' view of the situation. Focuses on contemporary issues, including the changes brought in by the Conservative/Liberal Democrat coalition. Written

by a leading academic with extensive experience in the probation service

Statistics for Criminology and Criminal Justice, Fourth Edition offers students a practical and comprehensive introduction to statistics and highlights the integral role research and statistics play in the study of criminology and criminal justice. Packed with real-world case studies and contemporary examples utilizing the most current crime data and empirical research available, students not only learn how to perform and understand statistical analyses, but also recognize the connection between statistical analyses use in everyday life and its importance to criminology and criminal justice. Written by two well-known experts in the field, Ronet D. Bachman and Raymond Paternoster continue to facilitate learning by presenting statistical formulas with step-by-step instructions for calculation. This "how to calculate and interpret statistics" approach avoids complicated proofs and discussions of statistical theory, without sacrificing statistical rigor. The Fourth Edition is replete with new examples exploring key issues in today's world, motivating students to investigate research questions related to criminal justice and criminology with statistics and conduct research of their own along the way. Give your students the SAGE edge! SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review, study, and further exploration, keeping both instructors and students on the cutting edge of teaching and learning.

This book offers an accessible introduction to comparative criminal justice and examines and reflects on the ways different countries and jurisdictions deal with the main stages in the criminal justice process, from policing to sentencing. This popular bestseller has been fully updated and expanded for the third edition. This textbook provides the reader with: a comparative perspective on criminal justice and its main components; a knowledge of methodology for comparative research and analysis; an understanding of the emerging concepts in comparative criminal justice, such as security, surveillance, retribution and rehabilitation; a discussion of global trends such as the global drop in crime, the punitive turn, penal populism, privatization, international policing and international criminal tribunals. The new edition has been fully updated to keep abreast with this growing field of study and research, including increased coverage of the challenge of globalization and its role and influence on criminal justice systems around the world. Topics such as state crime, genocide and the international criminal court have also grown in prominence since the publication of the last edition and are given increased coverage. This book will be perfect reading for advanced undergraduates and postgraduates taking courses in comparative criminal justice and those who are engaged in the study of global responses to crime. New features such as lists of further reading, study questions and boxed case studies help bring comparative criminal justice alive for students and instructors alike.
