In an era when college football coaches frequently command higher salaries than university presidents, many call for reform to restore the balance between amateur athletics and the educational mission of schools. This book traces attempts at college athletics reform from 1855 through the early twenty-first century while analyzing the different roles played by students, faculty, conferences, university presidents, the NCAA, legislatures, and the Supreme Court. Pay for Play: A History of Big-Time College Athletic Reform also tackles critically important questions about eligibility, compensation, recruiting, sponsorship, and rules enforcement. Discussing reasons for reform--to combat corruption, to level the playing field, and to make sports more accessible to minorities and women--Ronald A. Smith candidly explains why attempts at change have often failed. Of interest to historians, athletic reformers, college administrators, NCAA officials, and sports journalists, this thoughtful book considers the difficulty in balancing the principles of amateurism with the need to draw income from sporting events.

There is a reason that some people can eat all they want and seemingly never gain a pound, while others count every calorie, exercise, and can't lose an ounce. Millions of people - an estimated 45 percent of dieters - have Metabolism B, a condition that causes the body to over-process carbohydrate foods into excess body fat. Registered dietician Diane Kress's scientifically based, easy-to-follow program has helped thousands of people with Metabolism B lose weight and keep it off. As someone who struggled with Metabolism B for years, Kress knows firsthand the frustration of diets that don't work. The solution? A simple, three-step, carb-controlling program that stabilizes blood glucose levels and

reprograms the metabolism to melt away fat. The Metabolism Miracle starts working on Day 1.

Why do universities place so much emphasis on athletics? Are the salaries of head coaches excessive? Should student-athletes be paid? Why is there so much cheating in college sports? Should athletic departments be subsidized by the university? Does Title IX unfairly discriminate against men's sports? This textbook is designed to help teach students about the business of college sports, particularly the big-money sports of football and basketball, allowing them to answer these and other important questions. The book provides undergraduate students with the information and economic tools to analyze the behavior of the NCAA, athletic conferences, and individual colleges and universities in the market for college sports. Specific topics include the markets for athletes and coaches, the importance of athletics for colleges and universities, the finances of athletic departments, the influence of the media in commercializing college sports, issues of race and gender, and the possibilities for reforming college sports. Popular Mechanics inspires, instructs and influences readers to help them master the modern world.
