What does it mean to bring Asia into conversation with current literature on everyday multiculturalism? This book focuses on the empirical, theoretical and methodological considerations of using an everyday multiculturalism approach to explore the ordinary ways people live together in difference in the Asian region while also drawing attention to increasing trans-Asian mobilities. The chapters in this collection encompass inter-disciplinary research undertaken in Australia, Hong Kong, Malaysia, Singapore and South Korea that explores some core aspects of everyday multiculturalism as it plays out in and across Asia. These include an increase in intraregional movements and especially labour mobility, which demands regard for the experiences of migrants from Burma, China, Nepal, The Philippines and India; negotiations of cultural diversity in nations where a multi-ethnic citizenry is formally recognised through predominantly pluralist models, and/or where national belonging is highly racialized; and intercultural contestation against, in some cases, the backdrop of a newly emergent multicultural policy environment. The book challenges and reinvigorates discussions around the relative transferability of an everyday multiculturalism framework to Asia, including concepts such as super-diversity, conviviality and everyday racism, and the importance of close attention to how people navigate differences and commonalities in local and trans-local contexts. This book will be of interest to academics and researchers studying migration, multiculturalism, ethnic and racial studies, and to

advanced students of Sociology, Political Science and Public Policy. It was originally published as a special issue of Ethnic and Racial Studies.

In *The Wild Irish Girl*, the powerful Irish heroine's marriage to a heroic Englishman symbolizes the Anglo-Irish novelist Lady Morgan's re-imagining of the relationship between Ireland and Britain and between men and women. Using this most influential of pro-union novels as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps out the genealogy of this development, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s. Tracy's model enables him to elaborate the ways in which gender ideals are specifically contested in fiction, the discourses of political debate and social reform, and the popular press, for the purpose of defining not only the place of the Irish in the union with Great Britain, but the nature of Britishness itself.

"This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, Challenging Moments in Psychotherapy is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--
