VT5P0M - LUIS OROZCO

This title is an overview of designing for movement in buildings. It provides guidance for the concept or preliminary design stage, explaining the importance of considering movement in these early stages of design as the need to accommodate movement can have a major effect on basic conceptual decisions.

The Importance of Being Earnest is the final play of Oscar Wilde, and it is considered his masterpiece. The play is a farcical comedy with the theme of switched identities: the play's two protagonists engage in "bunburying" (the maintenance of alternative personas in the town and country) which allows them to escape Victorian social mores. Working within the social conventions of late Victorian London, the play's major motives are the triviality with which it treats institutions as serious as marriage, and the resulting satire of Victorian ways.

TRB Special Report 207: Transportation Professionals: Future Needs and Opportunities Aware assesses future professional needs in highway and mass transit agencies in federal, state, and local government. This study also examines the role of consulting firms in satisfying the future professional requirements of highway and transit agencies. A large number of professionals who entered highway and mass transit organizations during the past 30 years are expected to retire soon, particularly those who helped build the nation's Interstate system. Unless there is careful planning, this loss of professional capability could impair the ability of these agencies to maintain the nation's transportation system effectively.

Illustrates an integrated process of planning and writing persuasive grant proposals.

Fourteenth in a series of annual reports comparing business regulation in 190 economies, Doing Business 2017 measures aspects of regulation affecting 10 areas of everyday business activity: • Starting a business • Dealing with construction permits • Getting electricity • Registering property • Getting credit • Protecting minority investors • Paying taxes • Trading across borders • Enforcing contracts • Resolving insolvency These areas are included in the distance to frontier score and ease of doing business ranking. Doing Business also measures features of labor market regulation, which is not included in these two measures. This year's report introduces major improvements by expanding the paying taxes indicators to cover postfiling processes—tax audits, tax refunds and tax appeals—and presents analysis of pilot data on selling to the government which measures public procurement regulations. Also for the first time this year Doing Business collects data on Somalia, bringing the total number of economies covered to 190. Using the data originally developed by Women, Business and the Law, this year for the first time Doing Business adds a gender component to three indicators—starting a business, registering property, and enforcing contracts—and finds that those economies which limit women's access in these areas have fewer women working in the private sector both as employers and employees. The report updates all indicators as of June 1, 2016, ranks economies on their overall "ease of doing business?", and analyzes reforms to business regulation + identifying which economies are strengthening their business environment the most. Doing Business illustrates how reforms in business regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. More than 137 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground. In addition, the Doing Business data has generated over 2,182 articles in peer-reviewed academic journals since its inception.

Understanding the basics of materials is a crucial part of undergraduate and diploma construction or architecture-related courses, and this established textbook helps the reader to do just that with the help of colour photographs and clear diagrams throughout. This new edition has been completely revised and updated to include the latest developments in materials research, new images, appropriate technologies and relevant legislation. The ecological effects of building construction and lifetime use remain an important focus, and this new edition includes a wide range of energy saving building components.

What effect has globalization had on our understanding of literacy? Grassroots Literacy seeks to address the relationship between globalization and the widening gap between 'grassroots' literacies, or writings from ordinary people and local communities, and 'elite' literacies. Displaced from their original context to elite literacy environments in the form of letters, police declarations and pieces of creative writing, 'grassroots' literacies are unsurprisingly easily disqualified, either as 'bad' forms of literacy, or as messages that fail to be understood. Through close analysis of two unique, handwritten

documents from the Democratic Republic of the Congo, Jan Blommaert considers how 'grassroots' literacy in the Third World develops outside the literacy-saturated environments of the developed world. In examining these documents produced by socially and economically marginalized writers Blommaert demonstrates how literacy environments should be understood as relatively autonomous systems. Grassroots Literacy will be key reading for students of language and literacy studies as well as an invaluable resource for anyone with an interest in understanding the implications of globalization on local literacy practices.

A veteran human resources manager and consultant shares his firsthand experience to show human resources professionals in the design field how to attract, develop and retain the best people. Demonstrates how the nature of the design profession lends itself to special strengths and weaknesses in the human resources management area. Shows managers how to break out of traditional American styles of management and into the participative management style in which design professionals thrive. They'll also learn how to define their firm's mission, determine strategy, agree on common goals plus many other techniques that will contribute not only to their human resources management goals but also to their corporation's goals as a whole.

"TRB's National Cooperative Highway Research Program (NCHRP) Synthesis 455: Alternative Technical Concepts for Contract Delivery Methods Transportation documents various methods by which agencies have successfully implemented alternative technical concepts (ATCs) during the highway contracting process. The report identifies methods that promote transparency and fairness, while at the same time protecting the industry's right to confidentiality. The U.S. Federal Highway Administration defines an ATC as "a request by a proposer to modify a contract requirement, specifically for that proposer's use in gaining competitive benefit during the bidding or proposal process ... [and] must provide a solution that is equal to or better than the owner's base design requirements in the invitation for bid or request for proposal document."--Publisher's note.

A respected resource for decades, the Guide for the Care and Use of Laboratory Animals has been updated by a committee of experts, taking into consideration input from the scientific and laboratory animal communities and the public at large. The Guide incorporates new scientific information on common laboratory animals, including aquatic species, and includes extensive references. It is organized around major components of animal use: Key concepts of animal care and use. The Guide sets the framework for the humane care and use of laboratory animals. Animal care and use program. The Guide discusses the concept of a broad Program of Animal Care and Use, including roles and responsibilities of the Institutional Official, Attending Veterinarian and the Institutional Animal Care and Use Committee. Animal environment, husbandry, and management. A chapter on this topic is now divided into sections on terrestrial and aquatic animals and provides recommendations for housing and environment, husbandry, behavioral and population management, and more. Veterinary care. The Guide discusses veterinary care and the responsibilities of the Attending Veterinarian. It includes recommendations on animal procurement and transportation, preventive medicine (including animal biosecurity), and clinical care and management. The Guide addresses distress and pain recognition and relief, and issues surrounding euthanasia. Physical plant. The Guide identifies design issues, providing construction guidelines for functional areas; considerations such as drainage, vibration and noise control, and environmental monitoring; and specialized facilities for animal housing and research needs. The Guide for the Care and Use of Laboratory Animals provides a framework for the judgments required in the management of animal facilities. This updated and expanded resource of proven value will be important to scientists and researchers, veterinarians, animal care personnel, facilities managers, institutional administrators, policy makers involved in research issues, and animal welfare advocates.
