Guide to information on ... cars and light trucks.

This study chronicles the success of the Japanese car in America. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.

Repair manual for Mazda 1978-1989.

This book is an exploration into the relations between Americans and Japanese at the Mazda-Flat Rock plant. The presence of Japan Inc. looms larger than ever for millions of American managers and workers, as hundreds of Japanese companies open plants and offices in local communities across the United States. What is it like to work for the Japanese? Can Americans, with their strong tradition of individualism, adjust to a Japanese "team system" that emphasizes harmony and close cooperation? How do Americans and Japanese resolve the misunderstandings that arise from differences in language and culture? Journalists Joseph and Suzy Fucini sought the answers by studying relations between Americans and Japanese at the Mazda plant in Flat Rock, Michigan, the first wholly-owned Japanese auto plant to employ a unionized American workforce. For three years, the Fucinis followed events at the plant, interviewing more than one hundred workers, managers and outside suppliers. The authors conclude that for all its strengths, the team system requires the sacrifice of individual interests to the good of the group, and that no matter how hard an individual tries to become part of the Mazda team, advancement for both managers and workers will be limited by the fact that they are not Japanese.
