This note provides guidance to staff on the conduct of bilateral surveillance, a core activity of the Fund. Surveillance involves the continuous monitoring of members' economic and financial policies, and regular Article IV consultations. During these consultations,

staff holds pointed discussions with country authorities on the economic situation, the authorities' policies, and desirable policy adjustments. These discussions are then reported to the Fund's Executive Board for its consideration. The goal is, through thorough analysis, candid discussions, and a peer-review mechanism, to promote the domestic and ex-

ternal stability of members' economies and thereby the stability of the international monetary system as a whole. This book provides a state-of-the-art, comprehensive overview of the diagnosis and treatment of sleep disorders. It details evidence-based practice recommendations using parameters primarily developed by the American

Academy of Sleep Medicine. The book offers a thorough and extensive board review for specialization in sleep medicine and supports primary care clinicians in appropriately using sleep diagnostic testing results in clinical practice.

'An unforgettable novel.' - Washington Post At the turn of the twentieth century, as the oppression of Russia's imperial rule takes its toll on Finland, the three Koski siblings - Ilmari, Matti and the politicized young Aino - are forced to flee. They settle among a community of Finns in Deep River - a town on the western edges of the United States. The brothers face the excitement and danger of pioneering this frontier wilderness. But while they are climbing and felling trees one-hundred metres high, Aino is organizing the country's fledgling labour movements. As the Koskis strive to rebuild lives and families in an America in flux, they also try to hold fast to the traditions of a home they can never return to. And so the seasons change, the decades pass and the denizens of Deep River slip in and out of love; they become engineers and fishermen, midwives and widows,

soldiers and fugitives. In this profoundly moving epic Karl Marlantes masterfully depicts the tyranny of nascent America, the limits of human survival and the enduring might of family love. 'A finely-hewn portrait' An Amazon Best Book of July 2019

In line with the resurgence of interest in the history of archaeology manifested over the past decade, this volume aims to highlight state-of-the-art research across several topics and areas, and to stimulate new approaches and studies in the field. With their shared historiographical commitment, the authors, leading scholars and emerging researchers, draw from a wide range of case studies to address major themes such as historical sources and methods; questions of archaeological practices and the practical aspects of knowledge production; 'visualizing archaeology' and the multiple roles of iconography and imagery; and 'questions of identity' at local, national and international levels.

E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C'era una volta...." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompiballe che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere "C'è adesso...." e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricor-

di di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o presunte, di soprusi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l'aiuto cercato non lo concederanno mai. "Chi non conosce la verità è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente". Aforisma di Bertolt Brecht. Bene. Tante verità soggettive e tante omertà son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando l'immagine che dimostra la verità oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi

a farci del male e qualcuno deve pur essere diverso!

After a decade of reengineering and downsizing, many companies are leaner, more efficient, and acutely focused on their core business. Yet today's growth opportunities in global markets and new technologies demand a wider range of skills. More and more, firms must turn to alliances—often with their rivals—to meld the right resources for pursuing new opportunities. However, few managers are accustomed to working with undefined boundaries between collaboration and competition, with the need to combine unfamiliar skills, with networks of interdependent alliances, and with complex value creation strategies. Nor has their experience with traditional joint ventures prepared them for this world of intricate alliance webs. Alliance Advantage aims to help today's managers and their companies be more successful in their efforts to create, guide, and thrive with alliance strategies. Most conventional wisdom about alliances has focused on the formal design of bilateral alliances, devoting too little atten-

tion to the strategic underpinnings and too little commitment to building relationships. With Alliance Advantage, strategy experts Yves Doz and Gary Hamel convincingly argue that it is the strength of alliance strategies and the frequently overlooked internal processes that play the decisive role in shaping eventual outcomes. In a fundamentally new perspective on the way alliances are formed and managed, the authors reveal the analysis, processes, and partner interactions that enable allies to meet their strategic goals. Drawing on principles of strategy, organizational design, organizational learning, and collaborative management, this is the definitive resource for both understanding and leveraging the powerful advantages of alliances. Alliance Advantage provides both conceptual and practical tools for analyzing the design and performance of alliances. Here, for the first time, is a comprehensive guide that will help managers build new collaborations and improve existing ones. Each chapter examines a different aspect of an alliance, from selecting the right partners to minimizing conflicts to determining further commit-

ments. Companies such as Xerox, Boeing, Honda, and Corning, among others, provide examples of successful and unsuccessful partnerships, painting a vivid picture of the conditions that can make or break an alliance. Successful alliances, say Doz and Hamel, require constant attention. With *Alliance Advantage*, they offer today's best opportunity to study, understand, and increase the effectiveness of strategic alliances. *Modern Diplomacy* provides a comprehensive exploration of the evolution and concepts of the institution of diplomacy. This book equips students with a detailed analysis of important international issues that impact upon diplomacy and its relationship with international politics. The subject is brought 'to life' through the use of case studies and examples which highlight the working of contemporary diplomacy within the international political arena. Organised around five broad topic areas, including the nature of diplomacy, diplomatic methods and negotiation, the operation of diplomacy in specific areas and natural disasters and international conflict, the book covers all major topic areas of contemporary diplo-

macy.

Dramatizing the misery of the dust bowl migrants hoping to find work in California agriculture, this text starts with the scandals of the Spanish land grant purchases, and goes on to examine the experience of ethnic groups that have provided labour for California's agricultural industry.

From Aristotle to contemporary soap operas, friendship has always been a subject of fascination. But scholarly investigation of the broad social relevance of friendship has been neglected. *Rethinking Friendship* describes the varied nature of personal relationships today, and also locates friendship in contemporary debates about individualization and the supposed "collapse of community." Exploring friendships with partners and family as well as "friends," the book reveals ways in which friends and friend-like ties are an important and unacknowledged source of social glue. Using a rigorous analysis of in-depth interviews, the authors develop a set of innovative concepts--friendship repertoires (the range of friendships people have); friendship modes (the way people make and maintain friend-

ships over time); and patterns of suffusion (the extent to which boundaries between friends and family become blurred). These concepts form the basis of a typology of personal communities that vary in the roles played by friends, family, partners, and neighbors. Combining scholarly depth and rich description, this absorbing and accessible book will appeal to all those interested in informal social relationships, including students of methodology and policymakers. With its challenge to pessimistic commentators, *Rethinking Friendship* urges us to resist sweeping generalizations and to acknowledge the sheer diversity of social life today.

The Treasury's Asset Protection Scheme to protect over £280 billion of Royal Bank of Scotland's financial assets against losses has, so far, only been partially successful in encouraging lending to creditworthy borrowers on the scale originally envisaged. The Scheme, launched in early 2009, initially involved two banks. RBS eventually put £282 billion of assets into the Scheme, while Lloyds Banking Group paid £2.5 billion to exit the Scheme in November 2009 and instead raised additional

capital from shareholders. The principal elements of the Scheme, particularly the first loss, were based on a robust assessment of incentives and on as complete information on the underlying assets as were available at the time. As part of the Scheme, Lloyds and RBS agreed lending targets. While both banks met targets for mortgage lending, there was a shortfall of £30 billion against targets for lending to business. Value for money in the longer term will depend heavily on incentives built into the Scheme to encourage good management of assets. Establishing a requirement for RBS to bear the first £60 billion of losses (a 'first loss') was crucial in providing the right incentive for the bank to manage its assets effectively. However, if the first loss is exceeded, RBS will have less financial incentive to avoid further losses although the bank considers it will still have a legal and moral obligation to manage the assets as best it can. The position of taxpayers would be particularly vulnerable if losses were to exceed about £73 billion

This book takes stock of the past two decades of public sector modernisation in OECD countries. It

assesses failures and successes and identifies challenges ahead. It includes comparable data and tables comparing systems across countries.

When firms are on the brink of failure, only turnaround management can restore performance and profitability. The key is to provide stability and create cash (and a breathing space) for building long-term success. This fully revised edition provides practical advice on restoring confidence through effective leadership and planning. It highlights the importance of communication with stakeholders, staff, customers and suppliers, and how best to structure the capital base of an organization in order to fund recovery and future growth. Essential reading for chief executives, consultants and merchant bankers (as well as investors tracking the progress of ailing businesses), this book offers a definitive set of tools and techniques.

Seventeen-year-old Carla Ambrogio works as a shorthand typist in the shadow of the Duomo. Written between 1954 and 1957, and set in Milan just after the Second World War, this book describes how Carla con-

fronts the hostile environment in which she lives and works with courage and intelligence.

Twenty years after the fall of the Berlin Wall, the question remains 'Do good fences still make good neighbours'? Since the Great Wall of China, the Antonine Wall, built in Scotland to support Hadrian's Wall, the Roman 'Limes' or the Danevirke fence, the 'wall' has been a constant in the protection of defined entities claiming sovereignty, East and West. But is the wall more than an historical relict for the management of borders? In recent years, the wall has been given renewed vigour in North America, particularly along the U.S.-Mexico border, and in Israel-Palestine. But the success of these new walls in the development of friendly and orderly relations between nations (or indeed, within nations) remains unclear. What role does the wall play in the development of security and insecurity? Do walls contribute to a sense of insecurity as much as they assuage fears and create a sense of security for those 'behind the line'? Exactly what kind of security is associated with border walls? This book explores the issue of how the re-

turn of the border fences and walls as a political tool may be symptomatic of a new era in border studies and international relations. Taking a multidisciplinary approach, this volume examines problems that include security issues ; the recurrence and/or decline of the wall; wall discourses ; legal approaches to the wall; the 'wall industry' and border technology, as well as their symbolism, role, objectives and efficiency.

Originally published in 1990, this title attempts to provide for the educational practitioner an overview of a field that responded in the 1980s to a major educational agenda. This innovative 'agenda' called for teaching students in ways that dramatically improved the quality of their thinking. Its context is a variety of changes in education that brought the explicit teaching of thinking to the consciousness of more and more teachers and administrators.

With her delicate touch, Sofia Bauer restores books to their original splendor. In this art she finds refuge from her crumbling marriage and the feeling that her once-vibrant life is slipping away. Then an antique German edition takes her breath away. Slipped covertly into the endpapers is an intriguing mis- sive, the first part of a secret...from one book- binder to another. Two hundred years ago, Clarice

von Harmel defied the constraints of family and society to engage in a profession forbidden to women. Within three separate volumes, Clarice bound her own hidden story filled with pain, longing, and love beyond all reason. A confession that now crosses centuries to touch the heart of a stranger.

Organization and Economic Behaviour presents all the basic elements of organizational theory and behaviour. Different approaches are analysed, with a strong focus on reintegrating sociological, psychological and economic contributions to the subject. This unique volume is clearly written and is designed to address a wide audience, including students and academics, with the following material: * case studies and illustrations * exercises * discussion questions * further reading suggestions * a glossary.

The Bulletin is an annual peer-reviewed journal of the Transport and Tourism Division of the Economic and Social Commission for Asia and the Pacific (ESCAP). It provides a medium for the sharing of knowledge, experience, ideas, policy options and information on the development of transport infras-

structure and services in the Asia-Pacific region. This edition is devoted to issue related to women and transport. Six articles included in the publication share views on gender issues in transport based on the outcome of research and analytical studies and experiences from a number of countries, and discuss important policy issues related to the subject.

Dialogue interpreting, which takes place in institutional settings such as legal proceedings, health-care contexts, work meetings or media talk, has attracted increasing attention in translation, language and communication studies. Drawing on transcribed sequences of authentic talk, this volume raises questions about aspects of interpreting that have been taken for granted, challenging preconceived notions about differences between professional and non-professional interpreting and pointing in new directions for future research. Collecting contributions from major scholars in the field of dialogue interpreting and interaction studies, the volume offers new insights into the relationship between interpreting and mediating. It addresses a

wide readership, including students and scholars in translation and interpreting studies, mediation and negotiation studies, linguistics, sociology, communication studies, conversation analysis, discourse analysis.

This volume showcases some of the latest research on academic writing by leading and up-and-coming corpus linguists. The studies included in the volume are based on a wide range of corpora spanning first and second language academic writing at different levels of writing expertise, containing texts from a variety of academic disciplines (and sub-disciplines) and of different academic registers. Particularly novel aspects of the collection are the inclusion of research that combines rhetorical moves with multi-dimensional analysis, studies that cover both fixed and variable phraseological items (lexical bundles, phrase-frames, constructions), and work that is based on corpora of English as an academic lingua franca. Going beyond merely summarizing their findings, the authors also discuss what their research means for academic writing practice and pedagogical settings. The vol-

ume will be of interest to researchers, students, and teachers who would like to expand their knowledge of how academic writing functions and what it looks like in a variety of contexts.

The fascinating story of a century-old automobile dynasty Fiat is one of the world's largest automakers, but when it made headlines by grabbing control of a bankrupt Chrysler in 2009 it was unknown in the U.S. Fiat's against-all-odds swoop on Chrysler--masterminded by Sergio Marchionne, the Houdini-like manager who saved Fiat from its own near-collapse in 2005 - has made the automaker one of the most unlikely winners of the financial crisis. *Mondo Agnelli* is a new book that looks at the chain of unpredictable events triggered by the death of Gianni Agnelli in 2003. Gianni, the charismatic, silver-haired power broker and style icon, was the patriarch who had lead the company founded by his grandfather in 1899. But Gianni's own son had committed suicide. Without a mature heir, the dynasty and Fiat were rudderless. Backed by Gianni's closest advisors, his serious, shy, and determined grandson John plucked Marchionne from obscurity. Together,

they saved the family company and, inadvertently, positioned Fiat as a global trailblazer when the global storm hit. A classic story of ingenuity and hard work, the book portrays a business dynasty that triumphed over adversity and family tragedy because of its own smarts, sweat, and ability to bend

the rules. An engaging tale for those interested in the stories behind the economic crash, the book contains never-before reported material about how Fiat succeeded in making Chrysler profitable where both Daimler AG and Cerberus, its previous owners, had failed. A story for a wide audience, from car

buffs, business readers, lovers of Italy, and anyone fascinated by the lifestyle of Europe's most glamorous industrial dynasty, this book tells the tale of how Fiat achieved the seemingly impossible -- turning around an American automotive icon everyone else had given up for dead.
