"In 1985, Ra Un Nefer Amen received, through divine revelation, the Metu Meter (Word of God) oracle ... In Maat, the 11 laws of God ... [he] shares the revelations he has received concerning the laws ... correlated with the Tree of Life - that influence and govern people's lives"--Back cover. His preface indicates that he refers to the Kamitic Tree of Life, rather than the somewhat different Hebraic version.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “be-guiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Desde los comienzos de la egiptología, los especialistas no pararon de acumular textos que hablan de Maat, diosa egipcia de la justicia. A pesar de toda esta documentación, Maat sigue siendo un misterio para ellos. Hasta la fecha dicen no saber lo que es exactamente la Maat. Un trabajo notable de desciframiento de los textos fue realizado por la ciencia egiptológica, pero en este campo, nadie ha sacado partido de los conocimientos de la historia de los derechos antiguos. Del mismo modo, nadie ha aprendido a observar las imágenes y aún menos a entender los símbolos. La imagen de la cubierta de este libro contiene, por sí sola ,uno de los más antiguos secretos de la civilización egipcia que nos ha llegado intacto. Verdadera investigación, este libro saca partido de todos los indicios acumulados por los egiptólogos en relación con Maat. Gracias a sus competencias jurídicas y a su familiaridad con los símbolos -formada a través de un largo trabajo sobre el lenguaje onírico-, la autora reúne las piezas del rompecabezas que faltaban para poder formar la imagen de Maat. Una vez entendido el significado de la misma, se comprende de forma inmediata e inesperada, toda la civilización egipcia.

This book aims at presenting a new discussion of primary sources by renowned scholars of the long disputed question of "What Happened to the Ancient Library of Alexandria"? The treatment includes a brilliant presentation of cultural Alexandrian life in late antiquity.

"Nearly four thousand years ago, kings in various ancient societies, especially in Mesopotamia (contemporary Iraq), faced a crisis of major proportions. Large portions of the population were horribly in debt, many being forced to sell themselves or their children into slavery to pay off their debts. The laws and customs seemed to support the commercial practices that allowed lenders to charge 20%-30% interest, and the law protected the lenders and gave no recourse for the indebted. Strict justice called for the creditors to receive what they were due. But another legal concept, the emerging idea of equity, seemed to call for a different result - the use of law as a vehicle to free people from economic oppression. Debt relief edicts were instituted - "clean-slate laws" as they were known - and are of obvious relevance today as well where crushing debt is a major issue underlying social inequality"-- In Peace in Ancient Egypt, Vanessa Davies offers a new analysis of the ancient Egyptian concept of hetep ("peace").

THE FORTY TWO PRECEPTS OF MAAT, THE PHILOSOPHY OF RIGHTEOUS ACTION AND THE ANCIENT EGYPTIAN WISDOM TEXTS ADVANCED STUDIES This manual is designed for use with the 1998 Maat Philosophy Class conducted by Dr. Muata Ashby. This is a detailed study of Maat Philosophy. It contains a compilation of the 42 laws or precepts of Maat and the corresponding principles which they represent along with the teachings of the ancient Egyptian Sages relating to each. Maat philosophy was the basis of Ancient Egyptian society and government as well as the heart of Ancient Egyptian myth and spirituality. Maat is at once a goddess, a cosmic force and a living social doctrine, which promotes social harmony and thereby paves the way for spiritual evolution in all levels of society.

This study examines aspects of Seth which suggest that throughout Egyptian history he was continually worshipped and indeed, at times, enjoyed some prominence, notably in the Pre- and early-Dynastic periods, during the Hyksos interlude of the Second Intermediate Period and during the Ramesside era of the 19th and 20th Dynasties. Whilst previous authors have devoted some scholarship to these various aspects of Seth there have been very few attempts to bring all these together and to demonstrate that rather than being something of an outsider' to the Egyptian pantheon, he

actually had an important role within it, and as such was continually worshipped throughout ancient Egyptian history. In sum, the author examines the role of Seth as he was perceived by the Ancient Egyptians at specific times throughout their history. To achieve this aim a chronological approach is taken beginning with Seth's role in Predynastic Egyptian religion and then progressing through the early Dynastic and Old Kingdom, the First Intermediate period and the Middle Kingdom, the Second Intermediate Period, the New Kingdom, the Third Intermediate Period, the Late Period, and culminating with the Graeco-Roman Period up to the death of Cleopatra."

Cuneiform records made some three thousand years ago are the basis for this essay on the ideas of death and the afterlife and the story of the flood which were current among the ancient peoples of the Tigro-Euphrates Valley. With the same careful scholarship shown in his previous volume, *The Babylonian Genesis*, Heidel interprets the famous Gilgamesh Epic and other related Babylonian and Assyrian documents. He compares them with corresponding portions of the Old Testament in order to determine the inherent historical relationship of Hebrew and Mesopotamian ideas.

Middle Egyptian introduces the reader to the writing system of ancient Egypt and the language of hieroglyphic texts. It contains twenty-six lessons, exercises (with answers), a list of hieroglyphic signs, and a dictionary. It also includes a series of twenty-five essays on the most important aspects of ancient Egyptian history, society, religion and literature. The combination of grammar lessons and cultural essays allows users to not only read hieroglyphic texts but also to understand them, providing readers with the foundation to understand texts on monuments and to read great works of ancient Egyptian literature in the original text. This second edition contains revised exercises and essays, providing an up to date account of current research and discoveries. New illustrations enhance discussions and examples. These additions combine with the previous edition to create a complete grammatical description of the classical language of ancient Egypt for specialists in linguistics and other fields.

Conflicted Antiquities is a rich cultural history of European and Egyptian interest in ancient Egypt and its material culture, from the early nineteenth century until the mid-twentieth. Consulting the relevant Arabic archives, Elliott Colla demonstrates that the emergence of Egyptology—the study of ancient Egypt and its material legacy—was as consequential for modern Egyptians as it was for Europeans. The values and practices introduced by the new science of archaeology played a key role in the formation of a new colonial regime in Egypt. This fact was not lost on Egyptian nationalists, who challenged colonial archaeologists with the claim that they were the direct heirs of the Pharaohs, and therefore the rightful owners and administrators of ancient Egypt’s historical sites and artifacts. As this dispute developed, nationalists invented the political and expressive culture of “Pharaonism”—Egypt’s response to Europe’s Egyptomania. In the process, a significant body of modern, Pharaonist poetry, sculpture, architecture, and film was created by artists and authors who looked to the ancient past for inspiration. Colla draws on medieval and modern Arabic poetry, novels, and travel accounts; British and French travel writing; the history of archaeology; and the history of European and Egyptian museums and exhibits. The struggle over the ownership of Pharaonic Egypt did not simply pit Egyptian nationalists against European colonial administrators. Egyptian elites found arguments about the appreciation and preservation of ancient objects useful for exerting new forms of control over rural populations and for mobilizing new political parties. Finally, just as the political and expressive culture of Pharaonism proved critical to the formation of new concepts of nationalist identity, it also fueled Islamist opposition to the Egyptian state.

DIVEgyptian hieroglyphics, Mayan carvings, and Greek mathematical notations figure prominently in this spellbinding true story. Its illustrated insights reveal messages hidden in works of art, architecture, geometry, and literature. /div

The gods were everywhere in Ancient Egypt. Represented by statues, bas-reliefs, and funerary paintings, they even walked among the Egyptians in the person of Pharaoh, considered to be a liv-

ing god, son of the divine Ra. What better way to understand that distant culture than by becoming familiar with the people who served those gods? Using as his sources the Egyptian texts and the testimony of classical authors, Serge Sauneron illuminates the role of the priesthood in Ancient Egypt. He recreates the system of thought of one of the great civilizations of antiquity, addressing such topics as priestly functions, the world of the temples, holy festivals, tombs, and pyramids. Sauneron describes the ceremonies of daily worship, considered vital in preventing the world's descent into chaos. He takes us deep into the sacred precincts of the temples— home to the divine statues in which a part of the god was believed to dwell. One of the duties of the priests was to maintain these sacred effigies, to nourish, clothe, and protect them from attacks by evil spirits. This edition of *The Priests of Ancient Egypt*, an augmented version of the 1957 classic, was published in France in 1988, and has been translated authoritatively by David Lorton.

AFURAKA/AFURAITKAIT - The Origin of the term 'Africa' Numerous scholars over the centuries have attempted to delineate the etymological origins of the name Africa. However, they have failed because of a lack of understanding of Afurakani/Afuraitkaitnit (African) Ancestral Religion, cosmology and culture. Odwirafo Kwesi Ra Nehem Ptah Akhan is the first to elucidate and publish the actual etymological origins of the name Africa demonstrating the name to be derived linguistically and cosmologically from Afuraka/Afuraitkait - the original male and female aspects of the name. This includes showing the actual term written by our Afurakani/Afuraitkaitnit (African) Ancestresses and Ancestors in the medutu (hieroglyphs) of Ancient Kamit (Ancient Egypt) - a discovery which heretofore had never been accomplished. Afuraka/Afuraitkait is an indigenous designation for the continent first propounded by Afurakanu/Afuraitkaitnut (Africans~Black People) prior to the existence of any other people on Earth. The myths put forward by Eurasians seeking to locate the origins of the name Africa outside of the continent of Afuraka/Afuraitkait (Africa) and in the Greek, Latin, Sanskrit, Arabic, Phoenician and other languages, have been shown in this article series to be a deliberate attempt by the non-Afurakanu/non-Afuraitkaitnut (non-Africans/non-Blacks) to misinform Afurakanu/Afuraitkaitnut (Africans~Black People) and dispossess us of our heritage and culture. This is nothing new. We have been and will continue to be at war - culturally, intellectually, spiritually and physically - with the whites and their offspring, their culture and their pseudo-religions (inclusive of all forms of Christianity, Islam, Judaism/Hebrewism, Hinduism, Buddhism, Taoism, pseudo-esotericism, etc.) until the whites and their offspring no longer exist in the world. We will always meet the challenge and will emerge triumphant on every level. The proper etymology of the term Africa was first given to us in the 12990s (1990s) by our Nananom Nsamanfo - Akan term for our Honored or Spiritually Cultivated Afurakani/Afuraitkaitnit (African) Ancestresses and Ancestors. It was our Nananom Nsamanfo who would also lead us to the tangible evidence supporting the etymological origins of the term in the languages, cultures and ritual practices of Afuraka/Afuraitkait (Africa) - inclusive of Ancient Khanit and Kamit (Nubia and Egypt). We would subsequently release our publication: KUKU-U-TUNTUM The Ancestral Jurisdiction in 13002 (2002), wherein we defined the term Afuraka/Afuraitkait and its cosmological roots in the first section. The release of our article series in

13007-13008 was designed to provide a more detailed analysis of the nature and function of the name Afuraka/Afuraitkait (Africa) as it applies to Black People - and Black People only - and to expose the misinformation which continues to be propagated deliberately by the whites and their offspring, as well as by misinformed Afurakani/Afuraitkaitnit (African~Black) scholars, teachers, authors, etc. This four-part series is the first volume of a greater series. There are numerous manifestations of the term and name Afuraka/Afuraitkait (Africa) all over the continent and in the places we traveled after having migrated away from the continent thousands of years ago for the first time in our trusty. This is an attestation to the ancient spiritual roots of the name Afuraka/Afuraitkait. The information can and will fill many volumes. This is a never-ending project. ©Copyright by Odwirafo Kwesi Ra Nehem Ptah Akhan, 13007, 13008, 13011, 13014 (2007, 2008, 2011, 2014). All rights reserved. www.odwirafo.com

From the acclaimed New American Commentary Studies in Bible & Theology series, a book examining the ancient and modern significance of each of the Ten Commandments.

The Egyptian pyramid texts, which are the basis of this work, were collected and inscribed on the walls of five royal pyramids at Sakkareh between the years 2350 and 2175 B.C. The present work is the first English translation with commentary.

In this highly controversial and explosive book, archaeologist, historian, mythologist and linguist Acharya S. marshals an enormous amount of startling evidence to demonstrate that Christianity and the story of Jesus Christ were created by members of various secret societies, mystery schools and religions in order to unify the Roman Empire under one state religion. In developing such a fabrication, this multinational cabal drew upon a multitude of myths and rituals that existed long before the Christian era, and reworked them for centuries into the religion passed down to us today. Contrary to popular belief, there was no single man who was at the genesis of Christianity; Jesus was many characters rolled into one. These characters personified the ubiquitous solar myth, and their exploits were well known, as reflected by such popular deities as Mithras, Heracles/Hercules, Dionysos and many others throughout the Roman Empire and beyond. The story of Jesus as portrayed in the Gospels is revealed to be nearly identical in detail to that of the earlier savior-gods Krishna and Horus, who for millennia preceding Christianity held great favor with the people. The Christ Conspiracy shows the Jesus character as not unique or original, not "divine revelation." Christianity reinterprets the same extremely ancient body of knowledge that revolved around the celestial bodies and natural forces. The result of this myth making has been "The Greatest Conspiracy Ever Sold."

"ANCIENT KEMITE ISLAM," follows the premise of noted author and pioneer of Egyptology George G.M James, that it was the Moors (African Moslems) who were the custodians of the ancient Egyptian culture and civilization. This book explores the evidence of the abovementioned premise and reveals the light of Kemet (Egypt) given to the world again by way of the Moabite language of Arabic and Islamic Ritual. The author provides a comparative study of Islamic- Moorish and Kemetic thought. That there be no more talk about some Arab-Zionist religion called Islam. It is hoped that instead, one may recognize a preserved and updated way of life as the current code of standards given to the world by Allah, Ua Ntr or any of the divine attributes, through our ancient and modern forefathers who follow the succession of Prophets.

Law in Ancient Egypt examines the legal philosophy, legal institutions, and laws of the ancient Egyptians. Ancient documents, accounts, and literature provide the basis for a wide perspective of

law and the Egyptian legal system. VerSteeg delineates and analyzes the elements of Egyptian law, explaining how social, religious, cultural, and political forces shaped both the procedural and substantive aspects of law. Part I considers the theory of justice in ancient Egypt, exploring the role of law in society. Part I also traces the development of the judicial system distinguishing the various types of judges, courts, and procedures that were employed to make justice available to all. Part II reconstructs the substantive laws of the ancient Egyptians, including chapters detailing property, family law, inheritance and succession, tort and criminal law, contracts, and status. Land records, wills, sales documents, court chronicles, works of ancient fiction, and accounts of ancient trials illustrate the sophisticated, often subtle, and complex nature of law in ancient Egypt. This study provides an introduction to law in ancient Egypt. It is the first comprehensive overview of the subject written from the perspective of someone trained as an American lawyer who is also sufficiently familiar with the discipline of Egyptology. The book will be of interest to Egyptologists, legal historians, law students, and educated non-specialists who are interested in the interaction of law, history, and ancient culture.

"It is not for you to call profane what God counts clean."

Did Christianity replace traditional African religion with the arrival of European missionaries in past centuries? Or did sub-Saharan African cultures persist in maintaining their religious worldviews even after accepting the salvific message of Christianity? In this compelling book, Laurenti Mageza argues that despite missionary Christianity's refusal to acknowledge the worth of traditional African religious culture, the incarnational spirituality of those cultures remains vibrant and visible today, and has much to offer and teach other cultures, both Christian and not.

The Pyramid Texts are the oldest body of extant literature from ancient Egypt. First carved on the walls of the burial chambers in the pyramids of kings and queens of the Old Kingdom, they provide the earliest comprehensive view of the way in which the ancient Egyptians understood the structure of the universe, the role of the gods, and the fate of human beings after death. Their importance lies in their antiquity and in their endurance throughout the entire intellectual history of ancient Egypt. This volume contains the complete translation of the Pyramid Texts, including new texts recently discovered and published. It incorporates full restorations and readings indicated by post-Old Kingdom copies of the texts and is the first translation that presents the texts in the order in which they were meant to be read in each of the original sources.

A return to the substance and source of African morality by recovering the rational kernel of Africa's ancient moral and ethical traditions and putting it to paper. The term Maat essentially means "truth and justice incarnate" in all aspects of life. Our aim in preparing this book is to serve as a bridge, a portal, a medium for transmitting the transcendental wisdom of our ancestors across centuries, to absorb the most valuable elements of preceding ancient and modern developments, molding those vast experiences into an enlightening repository of guiding principles.--Page 18-19. Maat is the moral ideal of ancient Egypt whose texts contain information on Egypt's moral standards, its concepts of right from wrong, codes of behaviour and obligations. Written by a teacher of the tradition of Maat, this study is the 'first philosophical book that is based on a philologically and historically critical treatment of first-hand Egyptian material'. Focusing on the Maatian ideal rather than moral practices, Karenga discusses what Maat is and its place within the genre of philosophical ethics and morality, asking what it can contribute to modern African culture and values. Extracts are transcribed and translated into English.
