How Posters Work is more than a standard exhibition catalogue. Conceived as a useful and illuminating primer in visual thinking, it explores principles of design through a range of historical and contemporary works, uncovering ideas relevant not just to the design of posters but to 2D design more generally. How Posters Work has a unique focus on visual language. Rather than provide a history of the genre or a compilation of collectibles, the book is organized around active design principles. Concepts such as "Simplify," "Focus the eye," "Exploit the diagonal," "Reverse expectations," and "Say two things at once" are illustrated with a diverse range of posters, from avant-garde classics and rarely seen international works to contemporary pieces by today's leading graphic designers. Illustrated with over 150 works from the collection of Cooper Hewitt, Smithsonian Design Museum, How Posters Work provides a stunning education in seeing and making, demonstrating how some of the world's most creative designers have mobilized principles of layout, composition, psychology, and rhetoric to produce powerful acts of visual communication

"Fitrah: Man's Natural Disposition" is a translation of the Persian book "Fi?rat" by the great Muslim thinker and reformer, Ayatollah Murtada Mutahhari. "Fitrah" is the theme of a 10-session lecture series given by the martyred thinker in 1976-77. With ample citations from the Qur'an and other traditional Islamic sources, Mutahhari discusses the concept of 'fitrah' or man's natural disposition. The author does not confine himself to Islamic references as he continuously engages with the views of a wide range of philosophers including Plato, William James, Russell, Nietzsche, Marx, Feuerbach, Auguste Comte, Spencer, Will Durant, and Durkheim, among others. Mutahhari's ontological discussion covers a range of issues, including the literal and technical meaning of 'fitrah', sacred inclinations, love and worship, and the evolution of human originality. He also examines materialism and provides a theistic approach to some issues pertaining to the theories on the origin of religion, the evolution of human society, intrinsic and acquired guidance, and intuitive and sensory dispositions. This book lays a significant interconnected and deep foundation in Islamic theology and an understanding of human psychology, sociology and anthropology fully supported by the holy Quran, ahadith, logic and philosophy. The reader will leave with a holistic understanding of Islam and a true connection with the Almighty (SWT) through one own self.

Meet Donald Lam, he's a private detective or at least, he is by the end of the book. A more unlikely looking P.I. you'll never meet, as he is constantly reminded. At 5 and a half feet tall and 127 pounds, he's simply not intimidating at all. But what he lacks in brawn he more than makes up for in brains, a fact that is not lost on his new employer, Bertha Cool of the B.L. Cool Agency, was sharp enough to spot. Now, Bertha Cool is also not the most likely head figure of a detective agency, although physically impressive she most certainly is. She's sixty-something with grey hair, sparkling eyes and a grandmotherly expression. She weighs in at over 300 pounds and is described as having the majesty of a snow capped mountain and the assurance of a steamroller. When Lam gets the job he is put to work immediately because if there's one thing Bertha Cool believes in it's getting her money's worth. His

first job is to serve divorce papers on Morgan Birks, husband of Sandra Birks who claims he has been abusing her. It seems a straightforward enough job, and it is. But it's only after the papers have been served that the real fireworks begin. It's in the moments of confusion that quickly follow a seemingly successful job that Lam's genius is uncovered as he works his way through deduction after deduction and then comes up with a brilliant solution that is as impressive in its cunning as it is in its simplicity. As the first book of a series of 29, it provides a terrific start combining an interesting duo with a clever mystery. With the promise of many more such stories to follow, it's bound to leave you begging for more.
