"Dr. Phil," Canada's best-known automotive expert for more than 42 years, pulls no punches. Canada's automotive "Dr. Phil" says there's never been a better time to buy a new car or truck. For deals on wheels, 2013 will be a "perfect storm." In addition to lower prices and more choices, 2013 car buyers will see more generous cash rebates, low financing rates, bargain leases, and free auto maintenance programs. Buy, sell, or hold? Which cars and trucks are "wallet-friendly" and can easily last 15 years? Which vehicles offer the most features to best accommodate senior drivers? Do ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers? Is GM's 2013 Volt electric car destined to become an electric Edsel? These questions and more are answered in this informative guide.

Seminar paper from the year 2014 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,0, EGADE Business School, language: English, abstract: The automobile industry is famous for being ahead of the curve in most areas. Automotive companies cannot rely on a one-time announcement or word-of-mouth chatter to keep a steady stream to customers. These companies have to have well developed advertising strategies in their marketing processes, in order to sustain a profitable growth in all the markets they serve throughout the world. Mercedes-Benz (MB) is a German high-class automobile company. Its products stand for luxury, reliability and dependability. The company belongs to the multinational division of the German manufacturer Daimler AG and has its headquarters in Stuttgart, Baden-Württemberg, Germany. The company has 274,616 employees and gained a profit of 10,887 billion U.S. dollar with revenue of 147,257 billion U.S. dollars. Mexico is very important for the company's North American strategy, which can be proved by the fact that Mercedes-Benz produces its cars in Monterrey, Nuevo Leon, Mexico. According to the McKinsey Global Media Report 2013 Latin America provided the highest growth in expenditure for advertising, in 2012 the increase was 13.3 percent. The increasing investments of automotive companies are a reason for it - in 2011 the industry expanded its expenditures in advertising by 101 percent. A critical analysis of the MB's marketing strategy in Mexico is the purpose of this research paper. Since we are not able to cover all aspects of the marketing of MB due to the limitation of 10 to 15 pages for this paper, the study will be focusing on the following areas: sponsoring, social media, TV advertisements and magazine commercials. Thus, other areas of marketing like brand management or viral marketing will not be addressed. The products and services the company offers in Mexico will be mentioned. The marketing strategy of Mercedes-Benz México will be described and target groups will be defined. At the end of this paper we will state how MB can use its marketing in Mexico more efficiently in order to gain higher profits.

Tony Willard has been--amongst many other things in motor publishing motoring correspondent of the Birmingham Evening Mail and Editor of Automotive Management (now called AM)--the best read trade paper for the motor retail trade. There are now stacks of ways to buy cars in the UK. So many that it is really hard for consumers to know where to get best choice, best value, best service, best after-care, best credit or whatever it is that they prioritise. In addition to franchised deal-

ers there are: manufacturers selling direct to the public; rental car companies doing the same; car-buying agents; car supermarkets; used car dealers; internet traders; importers; auctions; and personal shoppers. Most car buying guides concentrate on WHAT to buy whether it be new or used. This book covers that, but assumes the buyer knows roughly what he wants. What has been missing until now is a guide through the jungle of places and prices which tells you WHERE to buy and HOW to pay not a penny more than necessary.

Prompted by the success of the MX-5 the SLK was based on a shortened C-class platform designed to include the Vario retractable steel roof and shown as a concept car in 1994. Full production be-

gan two years later but the UK only got the flagship model with a 193bhp, 2.3-litre supercharged engine with automatic gearbox. It was not until 2000 that the 3.2 litre V6 engine mated to a six-speed manual gearbox. became available. With this came body styling changes. The CLK was also based on the C-class platform but came with four seats and looked very similar to the E-class. It quickly went from the 2.3 to the 3.2 engine. Then came a cabriolet version. Mercedes kept up the pressure by introducing the CLK430 coupT with a 4.3-litre V8. This is a book of contemporary road and comparison tests, technical data, travel, long-term impressions, new model introductions. Models covered include: - SLK 200, CLK 230, CLK 320, SLK 230, CLK 430, SLK 320, CLK 55 AMG.
