The complete works of one of England's greatest Edwardian writers Saki is perhaps the most graceful spokesman for England's 'Golden Afternoon' - the slow and peaceful years before the First World War. Although, like so many of his generation, he died tragically young, in action on the Western Front, his reputation as a writer continued to grow long after his death. His work is humorous, satiric, supernatural, and macabre, highly individual, full of eccentric wit and unconventional situations. With his great gift as a social satirist of his contemporary upper-class Edwardian world, Saki is one of the few undisputed English masters of the short story and one of the great writers of a bygone era. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. A poignant novel about a biracial girl living in the suburbs of Las Vegas examines the friendships that grow out of, and despite, her race.

She's the one woman I'd give anything to forget--and now I'm stuck living with her. I'm making a fresh start in Lake Tahoe, until my stubborn sister decides to move Mira into our cabin. I'll be damned if I move out on Mira's account. Nothing has changed in the years since I last saw Mira. Her tempting body and smart mouth taunt me daily. The only hope I have at keeping my sanity is the knowledge that Mira is hiding something. Sooner or later I'll discover her secret, and knowing her, it'll be damning. But first, I have to ignore the urge to kiss and touch and make Mira mine again. --EXCERPT-- I grab her waist, guiding her back against the shelves. She kisses my cheekbone, nibbles my earlobe. "We can't do this here." That nibble shoots straight to my groin. "I beg to differ. I think we can manage." Once the walls come down, emotions run hot. From the author of the New York Times bestseller Letters of Note comes a collection of 75 of history's most interesting, profound, and sometimes unknown speeches from a range of scintillating personalities such as Frederick Douglass, Justin Trudeau, Albert Einstein, Meghan Markle, Barbara Jordan, and Ursula K. Le Guin. This thoughtfully curated and richly illustrated collection celebrates oratory old and new, highlighting speeches we know and admire, while also shining a light on profound drafts that were never delivered or have until now been forgotten. From George Bernard Shaw's warm and rousing toast to Albert Einstein in 1930 and the commencement address affectionately given to graduates at Long Island University by Kermit the Frog, to the chilling public announcement (that was thankfully never made) by President Richard Nixon should Neil Armstrong and Buzz Aldrin become stranded on the moon, Speeches of Note honors the words and ideas of some of history's most provocative and inspiring personages.

This book explains how and why information literacy can help to foster critical thinking and discerning attitudes, enabling citizens to play an informed role in society and its democratic processes. In early 21st century societies, individuals and organisations are deluged with information, particularly online information. Much of this is useful, valuable or enriching. But a lot of it is of dubious quality and provenance, if not downright dangerous. Misinformation forms part of the mix. The ability to get the most out of the information flow, finding, interpreting and using it, and particularly developing a critical mindset towards it, requires skills, know-how, judgement and confidence - such is the premise of information literacy. This is true for many aspects of human endeavour, including education, work, health and self-enrichment. It is notably true also for acquiring an understanding of the wider world, for reaching informed views, for recognising bias and misinformation, and thereby for playing a part as active citizens, in democratic life and society. This ground-breaking and uniquely multi-disciplinary book explores how information literacy can contribute to fostering attitudes, habits and practices that underpin an informed citizenry. The 13 chapters each come from a particular perspective and are authored by international experts representing a range of disciplines: information literacy itself, but also political science, pedagogy, information science, psychology. Informed Societies: Why Information literacy matters for citizenship, participation and democracy covers: - why information literacy and informed citizens matter for healthy, democratic societies - information literacy's relationship with political science - information literacy's relationship with human rights - how information literacy can help foster citizenship, participation, empowerment and civic engagement in different contexts: school students, refugees, older people and in wider society - information literacy as a means to counter misinformation and fake news - the challenges of addressing information literacy as part of national public policy. The book will be essential reading for librarians and information professionals working in public libraries, schools, higher education institutions and public bodies; knowledge and information managers in all sectors and student of library and information science students, especially those at postgraduate/Masters level who are planning dissertations. Because of the topicality and political urgency of the issues covered, the book will also be of interest to students of political science, psychology, education and media studies/journalism; policy-makers in the public, commercial and not-for-profit sectors and politicians implications of information use and information/digital literacy.
