2B4WEL - MAHONEY WILLIAMSON

Four years ago, Jack Temple was a homicide detective. He asked one too many questions and found himself out of a job. Now he is a reporter for the Garden City Times, writing about cops and still asking too many questions. When the mutilated body of Temple's former girlfriend - the Mayor's daughter - is found frozen in a local park, Temple dusts off his detective skills to uncover the truth behind the grisly murder. As he digs for clues, Temple finds himself drawn into the most difficult and dangerous investigation of his career. As an FBI serial killer investigation team takes an interest in the case, Temple taps old friends and bitter enemies to pierce the mystery - why does the FBI believe so many cases are connected? In what becomes an international manhunt he questions whether murder suspects arrested are guilty or just a cover for the truth. In the Dead Times, Temple must use his wits and his fists to save himself and get the story of a lifetime.

"Why aren't I as wealthy as I should be?" Many people ask this question of themselves all the time. Often they are hard-working, well educated middle- to high-income people. Why, then, are so few affluent. For nearly two decades the answer has been found in the bestselling *The Millionaire Next Door: The Surprising Secrets of America's Wealthy*, reissued with a new foreword for the twenty-first century by Dr. Thomas J. Stanley. According to the authors, most people have it all wrong about how you become wealthy in America. Wealth in America is more often the result of hard work, diligent savings, and living below your means than it is about inheritance, advance degrees, and even intelligence. *The Millionaire Next Door* identifies seven common traits that show up again and again among those who have accumulated wealth. You will learn, for example, that millionaires bargain shop for used cars, pay a tiny fraction of their wealth in income tax, raise children who are often unaware of their family's wealth until they are adults, and, above all, reject the big-spending lifestyles most of us associate with rich people. In fact, you will learn that the flashy millionaires glamorized in the media represent only a tiny minority of America's rich. Most of the truly wealthy in this country don't live in Beverly Hills or on Park Avenue—they live next door.

nig·gard·ly (adj.) [nig'erd-le] 1. stingy, miserly; not generous 2. begrudging about spending or granting 3. provided in a meanly limited supply If you don't know the definition of the word, you might assume it to be a derogatory insult, a racial slur. You might be personally offended and deeply outraged. You might write an angry editorial or organize a march. You might even find yourself making national headlines In other words, you'd better know what the word means before you pour your energy into overreacting to it. That's the jumping-off point for this powerful directive from Pulitzer Prize-winning journalist and bestselling author Karen Hunter. It's time for the black community to stop

marching, quit complaining, roll up their collective sleeves, channel their anger constructively, and start fixing their own problems, she boldly asserts. And while her straight-talking, often politically incorrect narrative is electrifyingly fresh and utterly relevant to today's hot-button issues surrounding race, Hunter harks back to the wisdom of a respected elder—Nannie Helen Burroughs, who was ahead of her time penning *Twelve Things the Negro Must Do for Himself* more than a century ago. Burroughs's guidelines for successful living—from making education, employment, and home ownership one's priorities to dressing appropriately to practicing faith in everyday life—teach empowerment through self-responsibility, disallowing excuses for one's standing in life but rather galvanizing blacks to look to themselves for strength, motivation, support, and encouragement. From our urban communities to small-town America, the issues Hunter is bold enough to tackle in *Stop Being Niggardly* affect us all. Refreshingly candid and challenging, certain to get people everywhere talking, this is the book that takes on race in a new—yet also historically revered and simply stated—way that can change lives, both personally and collectively.

What inspired us to make a 17 foot model of a female Anglerfish that is a wood-fired sauna on wheels? These pages will lead you on a multimedia journey through the conceptual design, the process of construction, and meaning within the sculpture. There will not be instructions on how each part is made, as all of the techniques reflect a nuanced relationship between the artist and the material. This relationship is explored through a process, identified as Media Based Design, that allows the characteristics of the media to guide the construction. The Anglerfish Sauna stimulates a connection with the natural world. It encourages the participants to step into a new environment. It forces one to unsheathe their

material identity, to bow and slip into a primordial cave. An experience outside of one's self. To remove our masks. To immerse yourself into a piece of artwork, where the walls are the canvas. It is not

décor, it is function. You are a part of the piece and to experience it you have to take part. Take a seat, get comfortable and warm your soul with this sauna story.
