The Tesla model X is a new and amazing crossover SUV that is manufactured by Tesla Motor. The prototype of the vehicle was first released at Tesla Headquarters located in Los Angeles in February 2012. This model was designed similarly to the full size sedan Tesla Model S which are both being manufactured at the Los Angeles plant. The first official set of deliveries of these vehicles started in September 2015. The series production vehicle was unveiled to the public in September 2015. It has unique features such as a panoramic windshield and has been rated as one of the safest SUV in regards of its frontal and side impact crash tests. Tesla has been a company that focuses on energy and efficiency. They also produce lithium ion batteries which is what their electric cars operate from. They aim over time to sell more vehicles, remain profitable and drive down the overall costs of the electric vehicles in the future.

Side by side utility vehicles are also known as UTVs, SBSUTVs or SxS. They are increasingly popular as a replacement for quad bikes because of their enhanced safety features. They are vehicles which can carry passengers, travel off-road, tow a trailer, carry small cargo or equipment and manoeuvre around obstacles and over rough terrain. They have a steering wheel, pedals, harness seat belts, doors, a cargo net, a crush protection device (CPD), and most have a tray back for carrying small loads at the rear of the vehicle. This publication is a guide to safely using side by side utility vehicles including the pre-start safety check, routine servicing, driving on slopes or through sand, water and mud, loading and towing, and when loading and unloading the vehicle from the back of a truck or trailer. Contents 1. Side by side utility vehicles and their use 2. Safety 3. Perform a pre-start safety check 4. Drive a side by side vehicle 5. Driving on slopes 6. Sand, water and mud 7. Towing and loading 8. Transporting the vehicle 9. Servicing the side by side utility vehicle 10. Care for the environment
