After the death of his wife, antiquarian Sir Richard Colt Hoare (1758-1838) left his only child in England and embarked on a series of journeys through continental Europe in pursuit of 'novelty, pleasure and information' in order to assuage his grief. At the end of the 1780s he deliberately diverged from the more conventional tourist trail in favour of a route through the then less-documented areas of Italy and down into Sicily, using classical authors as his guides. This work, first published in 1819, draws heavily on his daily journal entries to elucidate areas and points of interest that he felt had been overlooked in previous guides to Italy. Quotations from Horace, Tacitus and Pliny pertaining to ancient sites and practices are frequently included in Hoare's narrative, and he meticulously recreates the journey from Rome to Brundisium described by Horace in his Satires.

The two-volume set LNCS 6978 + LNCS 6979 constitutes the proceedings of the 16th International Conference on Image Analysis and Processing, ICIAP 2011, held in Ravenna, Italy, in September

They deal with the following topics: image analysis and representation; image segmentation; pattern analysis and classification; forensics, security and document analysis; video analysis and processing; biometry; shape analysis; low-level color image processing and its applications; medical imaging; image analysis and pattern recognition; image and video analysis and processing and its applications.
