Contains fifteen essays in which high school teachers share the stories of their success in planning content, improving teaching, and assessing learning since the release of the National Science Education Standards in 1996.

The Quarterly Review of Distance Education is a rigorously refereed journal publishing articles, research briefs, reviews, and editorials dealing with the theories, research, and practices of distance education. The Quarterly Review publishes articles that utilize various methodologies that permit generalizable results which help guide the practice of the field of distance education in the public and private sectors. The Quarterly Review publishes full-length manuscripts as well as research briefs, editorials, reviews of programs and scholarly works, and columns. The Quarterly Review defines dis-

tance education as institutionally-based formal education in which the learning group is separated and interactive technologies are used to unite the learning group.
