This book is about Pakistan's most popular Sufi saint Lal Shahbaz Qalandar whose shrine in Sehwan Sharif is one of the most fascinating sanctuaries in the Muslim world. At the time of pilgrimage, this flourishing cult centre becomes a vibrant place of ecstatic religiosity marked by intense forms of devotion. The present ethnographic study is organized around three themes: piety, pilgrimage, and ritual. Thus, its focus is first on visual culture and 'material religion' as well as various aspects of religious aesthetics which highlight how sacred spaces are constructed and shaped. Secondly, it deals with the year-round pilgrimage, mainly investigating pilgrims from Punjab (including a unique life history of a female 'Sufi lineage' from Lahore), but also discussing remarkable ritual agents in the cult. The third theme is the spectacular trance dance known as dhamāl. On February 16, 2017, a suicide bomber executed a horrible massacre among the dancing devotees. This work, which is the fruit of the author's field-research between 2003 and 2015 in Sindh and Punjab, aims to contribute to a 'Sufism observed' which often seems to be neglected in mainly text-based Sufi studies. It is an academic companion to his earlier *At the Shrine of the Red Sufi* (OUP, 2011).

The third part focuses on meetings and challenges in the conference industry after disasters, the economic impact and other dilemmas of mega-events, and city and destination concerns. The fourth and final part provides a peek into the future of events tourism vis-à-vis reshaping cities, music festivals and critical dilemmas of the 21st century. This extensive work explores the changing world of religions, faiths and practices. It discusses a broad range of issues and phenomena that are related to religion, including nature, ethics, secularization, gender and identity. Broadening the context, it studies the interrelation between religion and other fields, includ-

ing education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. Beginning with an introduction of the concept of the “changing world religion map”, the book first focuses on nature, ethics and the environment. It examines humankind’s eternal search for the sacred, and discusses the emergence of “green” religion as a theme that cuts across many faiths. Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world. In its discussion of the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and moral frameworks, and the financial and business issues of religious organizations. The next part of the book explores the many “new faces” that are part of the religious landscape and culture of the Global North (Europe, Russia, Australia and New Zealand, the U.S. and Canada) and the Global South (Latin America, Africa and Asia). It does so by looking at specific population movements, diasporas, and the impact of globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North, and as an emerging and distinguishing feature in the metropolitan, cosmopolitan and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political/religious nexus, and the new worlds associated with the virtual technologies and visual media.

We are apt to forget how much people traveled in the Middle Ages. Not only merchants, friars, soldiers and official messengers, but crowds of pilgrims were a familiar sight on the roads of Western Europe. In this engaging work of history, Jonathan Sumption brings alive the traditions of pilgrimage prevalent in Europe from the beginning of Christianity to the end of the fifteenth century. Vividly describing such major destinations as Jerusalem, Rome, Santiago de Compostela and Canterbury, he examines both major figures -- popes, kings, queens, scholars, villains -- and the common people of their day.

A thousand-year-old pilgrimage route and food traditions stretching back de toda la vida - since forever. These are what Dee Nolan set out to experience - on her pilgrimage to Santiago de Compostela - through the rich farming lands of southern France and northern Spain.

A re-creation of seven centuries of medieval life and art in the Midi, the troubadour country of France.

From the author of the award-winning *A Food Lover's Pilgrimage to Santiago de Compostela* Most of the early pilgrims were French and now Dee retraces their steps, seeking out the ancient paths through France. Dee's French pilgrimage winds through magnificent and changing landscapes: from Burgundy's vine-covered slopes to the gastronomic capital of Lyon; up onto the vast windswept meadows of the Aubrac plateau; along the dramatic Lot river; through the gentle hills of Gascony and, finally, to the trout-filled rivers of the Pyrenees. She meets the monks whose medieval predecessors planted the vineyards we see today, visits local markets with some of France's greatest chefs, cooks traditional recipes in home kitchens, and walks with farmers taking cattle to the high pasture.

The little island of Iona has a rich tradition of spiritual and historical mystery. Legends abound of Jesus and Mary Magdalene alighting and living here for a period prior to the Crucifixion, as well as the suggestion that Jesus visited the island with his mother under the escort of Joseph of Arimathea. The stories of angel sightings on Iona are legion, with claims that the island was once an exalted temple of natural beauty and wilderness, where only angels' feet trod and no earthliness was allowed to encroach on its sanctity. The theme of the book, as well as the celebration of sacred Iona as a place of pilgrimage, is the unveiling of the the secret of Rosslyn Chapel, the unique and extraordinary, unfinished little building just beyond Edinburgh that was made famous by Dan Brown's *The Da Vinci Code*. Iona and Rosslyn are united by ancient history, and particularly by the Culdees, the monks of Iona who settled there under St Columba late in the sixth century, and

who eventually gave rise to the Templars, whose secret legacy is said to be the mystery of Rosslyn Chapel. The significance of Iona, and the veneration it inspires in its pilgrims, both reaches back into the depths of history and points towards a spiritual future.

The Spanish Camino de Santiago, a pilgrimage rooted in the Medieval period and increasingly active today, has attracted a growing amount of both scholarly and popular attention. With its multiple points of departure in Spain and other European countries, its simultaneously secular and religious nature, and its international and transhistorical population of pilgrims, this particular pilgrimage naturally invites a wide range of intellectual inquiry and scholarly perspectives. This volume fills a gap in current pilgrimage studies, focusing on contemporary representations of the Camino de Santiago. Complementing existing studies of the Camino's medieval origins, it situates the Camino as a modern experience and engages interdisciplinary perspectives to present a theoretical framework for exploring the most central issues that concern scholars of pilgrimage studies today. Contributors explore the contemporary meaning of the Camino through an interdisciplinary lens that reflects the increasing permeability between academic disciplines and fields, bringing together a wide range of theoretical and critical perspectives (cultural studies, literary studies, globalization studies, memory studies, ethnic studies, postcolonial studies, cultural geographies, photography, and material culture). Chapters touch on a variety of genres (blogs, film, graphic novels, historical novels, objects, and travel guides), and transnational perspectives (Australia, the Arab world, England, Spain, and the United States).

New England has nurtured countless women who shook off traditional gender roles to forge their own destinies. Their achievements are legion. Narragansett tribal historian Princess Red Wing served as a delegate to the United Nations and co-founded Rhode Island's Tomaquag Museum. Boston iconoclast Isabella Stewart Gardner had the acute artistic vision to establish the museum that bears her name. Harriet Beecher Stowe ignited public opinion against slavery, arguably hastening the Civil War, as displays in her Hartford home make clear. Pioneering naturalist Rachel Carson jumpstarted the modern environmental movement with her writings about the rocky beaches and quivering tidepools of Southport, Maine. New England's Notable Women shines the spotlight on 45 of these trailblazers and achievers and directs readers to the homes and sites throughout New England where their stories come to life.
