From grade school to graduate school, from the poorest public institutions to the most affluent private ones, our educational system is failing students. In his provocative new book, cognitive scientist and bestselling author Roger Schank argues that class size, lack of parental involvement, and other commonly-cited factors have nothing to do with why students are not learning. The culprit is a system of subject-based instruction and the solution is cognitive-based learning. This groundbreaking book defines what it would mean to teach thinking. The time is now for schools to start teaching minds!

The Brown Center on Education Policy conducts research on topics in American education, with a special focus on efforts to improve academic achievement in elementary and secondary schools. The center seeks to inform policymakers at all levels of government, to influence the course of future educational research, and to produce a body of work not only valuable to policymakers and scholars, but also parents, teachers, administrators, taxpayers, school board members, and the general public.This annual report card analyzes the state of American education using the latest measures of student learning, uncovers and explains important trends in achievement test scores, and identifies promising and disappointing educational reforms. Unlike similar reports intended solely for government use, the Brown Center annual report card is written for an audience of parents, teachers, and policymakers.
