### FU4RAB - HINES RHODES

Please note this title is suitable for any student studying: Exam Board: AQA Level: AS Level Subject: Biology First teaching: September 2015 First exams: June 2016 Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. The book uses clear straightforward explanations to develop true subject knowledge and allow students to link ideas together while developing essential exam skills.

Fully revised and updated content matching the Cambridge International AS & A Level Biology syllabus (9700). Endorsed by Cambridge International Examinations, the Fourth edition of the AS/A Level Biology Coursebook comprehensively covers all the knowledge and skills students need during the Biology 9700 course (first examination 2016). Written by renowned experts in Biology teaching, the text is written in an accessible style with international learners in mind. The Coursebook is easy to navigate with colour-coded sections to differentiate between AS and A Level content. Self-assessment questions allow learners to track their progression and exam-style questions help learners to prepare thoroughly for their examinations. Contemporary contexts are discussed throughout enhancing the relevance and interest for learners.

Building on the success of the second edition, this truly accessible textbook comprehensively covers the 2008 AS and A2 level Human Biology specifications for all the main UK exam boards. The book also has a companion website which is free to book users providing extra resources. Written by authors with many years' experience of teaching, examining and writing, this is an ideal resource for class or independent study. The book includes the following features: How Science Works feature boxes focus on this key element of the new specifications. Stretch and Challenge boxes challenge more able students, enabling them to achieve the highest grades. Science in Context boxes encourage students to relate their learning to the world around them. Summaries at the end of every chapter help students with revision. Test Yourself questions throughout the text enable students to monitor their own progress in preparation for their exams. Remember This boxes highlight the key facts. The website provides the following additional resources: Practice questions (and answers) allow students to test their understanding of the material just covered. How Science Works assignments allow students to prepare for the How Science Works element of the new AS and A2 Human Biology exams.

Expert authors have taken the content of the AS and A Level specifications and presented them in a clear and concise format. Simple illustrations are used to present information in a particularly clear and memorable way.

New student book to prepare lower-ability students for completing AQA Entry Level Certificate in Science or Foundation Combined Science: Trilogy. Carefully designed to break core concepts down into manageable chunks, with regular progress checks to build student confidence and identify those that are ready to move onto Combined Science: Trilogy.

DT These highly successful revision guides have been brought right up-to-date for the new A Level specifications introduced in September 2000. DT Oxford Revision Guides are highly effective for both individual revision and classroom summary work. The unique visual format makes the key concepts and processes, and the links between them, easier to memorize. DT Students will save valuable revision time by using these notes instead of condensing their own. DT In fact, many students are choosing to buy their own copies so that they can colour code or highlight them as they might do with their own revision notes.
