A collection of tales with a cast of mermaids, tortoises, brothers, and insects, teaches lessons in greed, evil, and more

African Folk Tales By: Kwaku A. Adoboli The author picked up his love of folk tales from his father and his uncle, Okuma Totokpuiti Gamega. In the evening, the kids and some adults sat in a circle around the storytellers listening to the tales. The audience was alive and active, interjecting short songs, remarks, and dances as the tales progressed. Folk tales are for entertainment. That is why the songs and dances come in. The tellers themselves may sing and dance. The children are allowed to tell their tales. Folk tales also teach lessons in obedience, loyalty, forgiveness, justice, and more. Folk tales encompass oral literature, adages, grammar, and dos and don'ts of the language. The tales are meant to teach the young people the customs and norms of their society. They are different from oral history. Oral histories are more involved and cover the behaviors and experiences of the people. The author's father told these tales with animation, joy, and happiness in three languages: IGO, EWE, and TWI. The tales are universal and can be told in any language. Interpret and propound wisdoms to children and adults in any society. The Western World is aware of the famous African drums, rhythms, and songs. Now the author brings you the unique folk tales.

They are not poems to repeat word by word. They are not told the same way twice. The readers can embellish and adjust them to given situations, use them in entertainment, or in expounding moral lessons. Folk tales are for action and are full of active verbs. All the American based tales were originated by the author.

From the rift valley come stories of gods, tricksters, cattle and ogres from the many peoples of East Africa. Traditional stories bring a deeper understanding of the movement of peoples across East Africa. Common roots and differences between ancient peoples create a lively portrait with their fragile, powerful gods. Sub-Saharan Africa is a land of colourful contrasts and diverse cultures. Despite the destructive in-

fluences of colonialism and the slave trade and the lack of early written records, Africa has persevered with its powerful tradition of storytelling, with tales of its history passed down in songs and stories through the generations. Because of the huge diversity of lifestyles and traditions, no real unified mythology exists in Africa, but broadly speaking, a number of beliefs, ideas and themes are shared by African peoples. So this collection offers a selection of descriptions and tales, often those recorded faithfully by some of the first to put them to paper – tales of the gods, creation stories, trickster adventures, animal fables and stories which amuse and teach – from Olukun's Revenge, from the Yoruba people of west Africa, to The Story of the Glutton, from the Bantu-speaking peoples of east Africa, all brought together with the aim of providing an insight into the boundless and vibrant world of African myth. FLAME TREE 451: From mystery to crime, supernatural to horror and myth, fantasy and science fiction, Flame Tree 451 offers a healthy diet of werewolves and mechanical men, blood-lusty vampires, dastardly villains, mad scientists, secret worlds, lost civilizations and escapist fantasies. Discover a storehouse of tales gathered specifically for the reader of the fantastic.

Many African stories, whether or not they are about Kwaku Ananse the "spider man," are called, "Spider Stories." This book is about how that came to be. The African storyteller begins: "We do not really mean, we do not really mean that what we are about to say is true. A Story, a story; let it come, let it go." And it tells that long, long ago there were no stories on earth for children to hear. All stories belonged to Nyame, the Sky God. Ananse, the Spider man, wanted to buy some of these

stories, so he spun a web up to the sky and went up to bargain with the Sky God. The price the Sky God asked was Osebo, the leopard of-the-terrible-teeth, Mmboro the hornet who-stings-like-fire, and Mmoatia the fairy whom-men-never-see. How Ananse paid the price is told in a graceful and clever text, with forceful, lovely woodcut illustrations.

This book includes traditional favourites and classic folktales and mythology.

This book challenges us to take a cursory glance at our contemporary world, where modern mans

scientific and technological ingenuity has led him to soar thorough the galaxy and made the heavens part of his domain; and contrast that with his level of morality today. Open any newspaper or listen to the radio and television news and you cant help but lament on the appalling moral depravity and obscene behavior of our contemporary man. With this intractable moral depravity on the ascendancy, the author nostalgically reminiscences the upright morality of yesteryears, and admonishes us to heed Platos philosophical advice: now since men are by nature acquisitive, jealous, combative, and erotic, how shall we persuade them to behave themselves? By the policemen omnipresent club? {now, AK 47}. It is a brutal method, costly and irritating. There is a better way, and this is by lending to the moral requirements of the community. Throughout this book the author emphasizes the significance of proper moral education in shaping the character of children, youngsters and even adults, and reminds us: morals are the rules by which society exhorts its members and associations to behavior consistent with its 'order, security and growth {Will & Ariel Durant}. The author noted that in traditional African societies, the wise elders, like the ancient Greek philosophers, strongly emphasized the teachability of moral values and deliberately inculcated them into their youngsters. The stories in this book are folktales filled with moral lessons that have been handed down from many generations to the present in many African countries from Ghana, Nigeria, Cameroons, Liberia, the Gambia, Kenya, Ethiopia, Tanzania to Zimbabwe. The traditional African elders successfully utilized these folktales to socialize their youngsters to the moral requirements of their society to insure stability, harmonious relations, order, security and growth.
