"We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. Montessori Madness! explains why the incremental steps politicians and administrators continue to propose are incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book ask parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what educations should look like will never be the same"--Back cover.

This beautifully designed little book reflects the elegance of the Art Deco period and will prove a useful and entertaining resource for modern typographers and graphic artists. In addition to demonstrating the appeal and effectiveness of great lettering, it abounds in material that designers can adapt — borders, ribbons, dingbats, rules, and more. Like the 1931 first edition, it is printed in two colors and graced with a decorative hard-cover binding.

A twelfth-century poem by the creator of the Arthurian romance describes the courageous exploits and triumphs of a brave lord who tries to win back his deserted wife's love

This cutting-edge collection of articles provides the first organised reflection on the language of films and television series across British, American and Italian cultures. The volume suggests new directions for research and applications, and offers a variety of methodologies and perspectives on the complexities of "televicinematic" discourse — a hitherto virtually unexplored area of investigation in linguistics. The papers share a common vision of the big and small screen: the belief that the discourses of film and television offer a re-presentation of our world. As such, televicinematic texts reorganise and recreate language (together with time and space) in their own way and with respect to specific socio-cultural con-

ventions and media logic. The volume provides a multifaceted, yet coherent insight into the diegetic — as it revolves around narrative — as opposed to mimetic — as referring to other non-narrative and non-fictional genres — discourses of fictional media. The collection will be of interest to researchers, tutors and students in pragmatics, stylistics, discourse analysis, corpus linguistics, communication studies and related fields.

A new publication presenting an overview of the work of Samoan-born New Zealand-based alphabet and advertising designer Joseph Churchward [1932]. The publication compiles archive material, correspondence, realised and un-realised designwork, alphabet designs and in-dispersed with essays surrounding aspects of Churchward's practice by New Zealand and overseas writers and designers. It attempts to tell a story in process of New Zealand's most prolific designer of letters to date.

A look back at the popular rock group features exclusive interviews with Roger Waters and other Pink Floyd members and discusses the misconceptions about the group's albums, lyrics, and concerts. Original.

A respected physics professor and author breaks down the great debate over the Big Bang and the continuing quest to understand the fate of the universe. Today, the Big Bang is so entrenched in our understanding of the cosmos that to doubt it would seem crazy. But as Paul Halpern shows in *Flashes of Creation*, just decades ago its mere mention caused sparks to fly. At the center of the debate were Russian American physicist George Gamow and British astrophysicist

Fred Hoyle. Gamow insisted that a fiery explosion explained how the elements of the universe were created. Attacking the idea as half-baked, Hoyle countered that the universe was engaged in a never-ending process of creation. The battle was fierce. In the end, Gamow turned out to be right -- mostly -- and Hoyle, along with his many achievements, is remembered for giving the theory the silliest possible name: "The Big Bang." Halpern captures the brilliance of both thinkers and reminds us that even those proved wrong have much to teach us about boldness, imagination, and the universe itself.

Excerpt from Allen's Synonyms and Antonyms The collation and application of these memoranda have taken me many years of intense labor but these memoranda form the basis upon which the present dictionary has been constructed. My aim has been to make the scope of the book as broad as possible in order to meet the requirements of my most critical advisers, though this has not been easy. Some have urged that obsolete and rare words be omitted' others have advised that they be retained.

Some have thought the contextual notes superfluous; others, even among professional writers, have considered them highly valuable. And so with other features of the book. At some have thought needless, others have thought helpful. As a result it has seemed advisable to meet all reasonable requirements by including those features which serve any widely felt need. In the twenty-first century, the widespread integration of computer technologies has brought text-based information into many facets of everyday life. This has caused an ever-growing interest in typography across many fields of visual communication, where text and letterform play a central role in disseminating social trends and reflecting the spirit of the times. Arabic Typography takes the reader through a comprehensive study of Arabic letterforms, starting with a concise historical overview of their development and styles, and proceeding to the latest design and technological advances. It attempts to establish the foundations for Arabic type-design by drawing lessons from past practices and aesthetic conventions, in order to retain the enduring traits that are of relevance for

improvement and innovation in future type-design creations. Going beyond the historical facts to discuss current design issues pertaining to the creation and production of letterforms, it presents Arabic typographic design as an essential communication tool that should marry functionality and legibility to aesthetic delight. This book will serve as a valuable reference on Arabic typography, and as an educational guide for design students, professionals and anyone who uses Arabic type and enjoys the visual appearance of this language and its letterforms.

Lavishly illustrated throughout with photographs, 'Boas and Pythons of the World' provides comprehensive and authoritative information in a lively and accessible format - a fitting celebration of one of the most fascinating yet little-known groups in the reptile world.

The extraordinary account of the Cuban people's struggle for survival in a post-Soviet world In the aftermath of the fall of the Soviet Union, Cuba faced the start of a crisis that decimated its economy. Helen Yaffe examines the astonishing developments that took place during and beyond this period. Drawing on archival research and interviews with Cuban leaders, thinkers, and activists, this book tells for the first time the remarkable story of how Cuba survived while the rest of the Soviet bloc crumbled. Yaffe shows how Cuba has been gradually introducing select market reforms. While the government claims that these are necessary to sustain its socialist system, many others believe they herald a return to capitalism. Examining key domestic initiatives including the creation of one of the world's leading biotechnological industries, its energy revolution, and medical internationalism alongside recent eco-

nomie reforms, Yaffe shows why the revolution will continue post-Castro. This is a fresh, compelling account of Cuba's socialist revolution and the challenges it faces today.

Completely updated, *Tomorrow's Technology and You*, provides you with an understanding of information technology so you can successfully navigate change and advance into the future. Today we're standing at the junction of three powerful and rapidly evolving technological forces: computers, communications, and digital entertainment. Computer technology is showing up in everything from automobiles to home appliances to telephones to televisions, and the lines that separate these machines are fading. This digital convergence is rapidly-and radically-altering the world in which we live.

Reggae Silver knew he was destined to live up to his name and become a great reggae singer, but first he had to survive his release from prison. Wrongly accused of robbery and attempted murder, he faced the threat of deportation, poverty, and continuing battles with the drug dealer who had framed him. Yet he never lost sight of his two dreams--to become a famous reggae artist and to prove his innocence. Set against the backdrop of the Jamaican sub-culture in New York, "Reggae Silver" is a thrilling story interwoven with the music and language of the reggae world. Written by Horane Smith, a prolific Jamaican-Canadian novelist and award-winning journalist, this tale of a man's struggle against the odds has universal appeal.

God created a game - it's called The Game of Life. Planet Earth is the playing field, the 10 love commandments are the rules, and we humans are the players who can win or lose. The game is played by two teams, like the game of

football. One team's head coach is Jesus and the other team's head coach is Satan. All of us on earth are playing for one of these two teams! Gabriel Ansley Erb wrote the book "2028 END" in order to fully elucidate God's game clock scenario for The Game of Life as contained in the game's handbook, the Holy Bible. The handbook says, "God declared the end from the beginning" (Isaiah 46:10) by using 7 days in the creation event. Each 24 hour creation day foretold of a future 1,000 year period for a total 7,000 year plan God had for The Game of Life to be played on planet earth. And amazingly, to confirm this is all true, God hid a secret prophesy in each creation day foretelling the greatest event He had planned to occur in that day's future millennium! Consequently, Creation day 1 foretold Adam & Eve's fall, which was fulfilled during earth's 1st millennium. Creation day 2 foretold Noah's global flood, which was fulfilled during earth's 2nd millennium. Creation day 3 foretold Moses' Red Sea parting, which was fulfilled during earth's 3rd millennium. Creation day 4 foretold of John the Baptist & Jesus Christ, and so they lived and died during earth's 4th millennium. And the prophecies continue with each Creation day! Gabriel proves all of the above, carefully revealing the prophetic Scriptures as well as the fulfillment Scriptures. Then he reveals a dozen Scriptures proving Christ died earth's 4,000 year and will return earth's 6,000 year. Finally, he proves Christ died Feast of Passover AD 28 and will return Feast of Trumpets 2028. For those who read this book, it is an open and shut case: The Game of Life will end 2,000 years from the year of Christ's death on the cross - AD 2028.

Working Girl meets What Remains in this

New York Times bestselling, behind-the-scenes story of an unlikely friendship between America's favorite First Son, John F. Kennedy Jr. and his personal assistant, a blue-collar girl from the Bronx. Featured in the documentary I Am JFK Jr.! From the moment RoseMarie Terenzio unleashed her Italian temper on the entitled nuisance commandeering her office in a downtown New York PR firm, an unlikely friendship bloomed between the blue-collar girl from the Bronx and John F. Kennedy Jr. Many books have sought to capture John F. Kennedy Jr.'s life. None has been as intimate or as honest as *Fairy Tale Interrupted*. Recalling the adventure of working as his executive assistant for five years, RoseMarie portrays the man behind the icon—patient, protective, surprisingly goofy, occasionally thoughtless and self-involved, yet capable of extraordinary generosity and kindness. She reveals how he dealt with dating, politics, and the paparazzi, and describes life behind the scenes at *George* magazine. Captured here are her memories of Carolyn Bessette, how she orchestrated the ultra-secretive planning of John and Carolyn's wedding on Cumberland Island—and the heartbreak of their deaths on July 16, 1999, after which RoseMarie's whole world came crashing down around her. Only now does she feel she can tell her story in a book that stands as "a fitting personal tribute to a unique boss . . . deliriously fun and entertaining" (Kirkus Reviews).

"America's strangest magazine" (Spin), *The Duplex Planet* began when Greenberger started publishing his unlikely conversations with the residents at the Duplex Nursing Home in Boston. Over 100 issues later, his magazine has inspired a poetry collection, a 5-vol. CD set, two documentaries, three plays, and this book. Illus.
