Do you know any LTC facility or hospital at Macomb or ...

The Pediatric Long Term Care (LTC) and Respite Care services at Children's Specialized Hospital provide exceptional care for children with complex medical conditions. Our two LTC centers in northern and central New Jersey are home to many medically fragile children whose families' current circumstances no longer allow them to be cared for in the home or other community setting.

Pediatric Long Term Care | Children's Specialized Hospital

Long-Term Care/Subacute Care Unit in an Acute Care General Hospital. A unit located within a hospital which utilizes long-term care beds to provide subacute

care to patients for a maximum length of stay of eight days. Long Term Care Pediatric. A facility, distinct nursing unit, or program which is dedicated for occupancy by residents under age 20.

Department of Health | Health Facilities | Facility Types

Long-term care (LTC) is a variety of services which help meet both the medical and non-medical needs of people with a chronic illness or disability who cannot care for themselves for long periods. Long term care is focused on individualized and coordinated services that promote independence, maximize patients' quality of life, and meet patients' needs over a period of time.

COVID-19 Guidance: Long-Term Care Homes

Most people who need inpatient hospital services are admitted to an “acute-care” hospital for a relatively short stay. But some people may need a longer hospital stay. Long-term care hospitals (LTCHs) are certified as acute-care hospitals, but LTCHs focus on patients who, on average, stay more than 25 days.

What are long-term care hospitals? - Medicare.gov

You are admitted to a Medicare-certified nursing facility within 30 days of that inpatient hospital stay. You need skilled care, such as skilled nursing services, physical therapy, or other types of therapy. If you meet all these conditions, Original Medicare will pay a portion of the costs for up to 100 days for each benefit period as follows:

Guidance for U.S. Healthcare Facilities about Coronavirus ...

I have worked in LTC on and off for the past six years, so I will comprise a list of what I believe are the cons of this type of nursing. Cons: 1. The acuity level in LTC is rising due to pressure to get patients out of the hospital faster. The LTC facility where I am employed often gets patients who are only 2 days postop.
