### The Physics Classroom Website

A scientific or graphing calculator is allowed on the AP Physics C: Mechanics exam, and the test provides a sheet of equations for test-takers to use. Equation memorization is not required, but familiarity with common equations can help you manage your time well on the test.

For AP Physics C, my teacher uses past AP Exam FRQ and MC questions, I don't have the time nor the inclination to go searching for those, so I just find practice questions online that other AP teachers have posted. Long story short, don't use tests banks. @guineagirl96 my AP Stats teacher just showed us that video last week.

The AP Physics C: Mechanics Exam will continue to have consistent question types, weighting, and scoring guidelines every year, so you and your students know what to expect on exam day. The overall format of the exam—including the weighting, timing, types of questions, and types of stimulus materials—won't

change.
