Research Paper Example: Sustainable Environmental Design in Architecture The theory of sustainable architecture originated during the energy crisis in 1970. Nowadays, the theory has become popular all over the world. The concept of "green buildings" is meant to meet the challenges in saving energy and to avoid the extinction of modern man.

[Research Paper Example on Design in Architecture](#)

A lot of papers have been written on such subject as architecture, and that is why it will be really complicated to impress with something new. Good choice would be just to choose one appropriate subject and research it more deeply and in this way there is a good chance you will tell people something new about it. Apr 27, 16 9:04 am ·
