Overclock i5 3570K on a Asus P8Z77-V LE Plus? Hi! I'm about to pick up a Corsair H100i Pro in hope to squeeze some more juice out of my 3570k. I have a GTX 1060, but I believe the CPU is the bottleneck of my rig. The mainboard is probably the cheapest thing I could find back then, so I'm a bit worried about what it can handle. This guide covers UEFI tuning for ASUS Z77 motherboards, including P8Z77 series, Sabertooth Z77 and Republic of Gamers Maximus V series. For the most part, the default auto settings for each parameter should suffice - we've selected optimum parameters for some of the more complex settings in order to allow users to achieve a successful overclock without too much fuss.
