The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

Electronic systems are becoming increasingly complicated and interconnected, and those of the U.S. Department of Defense (DoD) are no exception. Due to the evolution of electronic systems, combined with the need to save time, energy, and money, DoD plans to replace paper delivery of servicemember separation information with electronic delivery. A timely analysis is critical to ensure DoD is best positioned to optimize and effectively orchestrate this opportunity. Clear, authoritative information on characterization of service and reasons for separation is critical for individuals as they re-enlist, change duty status, or transfer into civilian employment; for dependents and survivors; for government agencies that adjudicate veteran status and benefits; and for military departments, as they move toward fully integrated digital databases. DoD's DD Form 214 has existed since the 1950s, when it standardized information across the services by replacing service-level forms. The form is largely unchanged since that time and has remained the defining document to verify a servicemember's discharge from active duty. As electronic information supplants paper, information provided by the services must continue to meet the important purposes of DD Form 214. To ensure consistency across the services and avoid omission of critical information, DoD needs an in-depth analysis of the current use of DD Form 214 to identify ways in which it could be improved to meet the diverse needs of the numerous organizations and individuals who use and depend on it.

This publication isn't intended to cover bankruptcy law in general, or to provide detailed discussions of the tax rules for the more complex corporate bankruptcy reorganizations or other highly technical transactions. Additionally, this publication isn't updated on an annual basis and may not reflect recent developments in bankruptcy or tax law. If you need more guidance on the bankruptcy or tax laws applicable to your case, you should seek professional advice. This publication explains the basic federal income tax aspects of bankruptcy. A fundamental goal of the bankruptcy laws enacted by Congress is to give an honest debtor a financial "fresh start". This is accomplished through the bankruptcy discharge, which is a permanent injunction (court-ordered prohibition) against the collection of certain debts as a personal liability of the debtor. Bankruptcy proceedings begin with the filing of either a voluntary petition in the United States Bankruptcy Court, or in certain cases an involuntary petition filed

by creditors.
