Fixed Income Attribution BarraOne is an integrated risk and performance platform providing global, multi-asset class, and multi-currency portfolio analytics that supports clients' investment decisions. BarraOne Performance Analytics offers a suite of performance attribution models to analyze sources of portfolio

BarraOne Performance Analytics - MSCI

MSCI: Risk From Any Altitude: Using the Barra®One Macro Factors. Some large institutional investors prefer the granularity of a bottom-up factor model - the way risk is allocated across markets, styles, issuers and industries - while others may prefer a more aggregated view. These investors would rather decompose risk into a few broad themes, such as by grouping fixed-income risk across markets into a level and a slope factor.

MSCI: Risk From Any Altitude: Using the Barra®One Macro ...
