~~To answer this one we need to go to the basic definition of a median. Median is the value which has roughly half the values before it and half the values after. The number of values less than 25 are $(36+54+69 = 159)$ and the number of values greater than 30 are $(55+43+25+22+17= 162)$. So the median should lie somewhere between 25 and 30.~~
