One of the easiest wild greens to identify, a pair of thick gloves in the foraging bag are a must when picking stinging nettles. Early spring is the best time to pick them: choose young, pale green nettle tops – after about late May/June onwards they'll be getting a bit tough and stringy. Never pick when they are in flower and handle with care until cooked – this will remove the sting.

I use 500ml jars for these ferments. To sterilise them, heat oven to 180C/160C fan/gas 4. Wash the jars and lids thoroughly in warm soapy water, then leave to dry on the draining rack, drying the lids with a clean tea towel. Put your jars on a shelf in the oven for 15 mins, then remove with oven gloves. Once cool, they are ready to use.
