3KW84A - WILLIAMSON JONAH

That's when it hits me. I'm staring at a war zone. In South Central. On an April night in 1992, Payasa learns that her older brother has been stabbed to death, his body left out in the road to rot. He was never involved. He was innocent. He didn't even carry a gun. And that messes with the rules, even for Lynwood, even for the streets. But it's the first day of the LA riots, and the city is tearing itself apart. Fire-fighters, graffiti artists, nurses and law enforcement – all of them connected by this murder – find themselves caught in the mayhem. Every cop is distracted, and for the people who see the law as an enemy, it's a chance to settle old scores. That's just too good an opportunity to miss. 'All Involved is a symphonic, pitch-perfect, superlative novel. It swallowed me whole.' – David Mitchell, author of Cloud Atlas 'A heart-breaking portrait of a city tearing itself apart. Ryan Gattis has created characters who

live on in the imagination long after you have read the final page.' - Paula Hawkins, author of The Girl on the Train
Brigitte Gabriel lost her childhood to militant Islam. In 1975 she was ten years old and living in Southern Lebanon when militant Muslims from throughout the Middle East poured into her country and declared jihad against the Lebanese Christians. Lebanon was the only Christian influenced country in the Middle East, and the Lebanese Civil War was the first front in what has become the worldwide jihad of fundamentalist Islam against non-Muslim peoples. For seven years, Brigitte and her parents lived in an underground bomb shelter. They had no running water or electricity and very little food; at times they were reduced to boiling grass to survive. Because They Hate is a political wake-up call told through a very personal memoir frame. Brigitte warns that the US is threatened by fundamentalist Islamic theology in the same way Lebanon was— radical Islam will stop at

nothing short of domination of all non-Muslim countries. Gabriel saw this mission start in Lebanon, and she refuses to stand silently by while it happens here. Gabriel sees in the West a lack of understanding and a blatant ignorance of the ways and thinking of the Middle East. She also points out mistakes the West has made in consistently underestimating the single-mindedness with which fundamentalist Islam has pursued its goals over the past thirty years. Fiercely articulate and passionately committed, Gabriel tells her own story as well as outlines the history, social movements, and religious divisions that have led to this critical historical conflict.

 A moving and timely collection of testimonials from people impacted by hate before and after the 2016 presidential election
 In *American Hate: Survivors Speak Out*, Arjun Singh Sethi, a community activist and civil rights lawyer, chronicles the stories of individuals affected by hate. In a series of powerful, unfiltered testimonials, survivors tell their stories in their own words and describe how the bigoted rhetoric and policies of the Trump administration have intensified bullying, discrimination, and even violence toward them and their communities. We hear from the family of Khalid Jabara, who was murdered in Tulsa, Oklahoma, in Au-

gust 2016 by a man who had previously harassed and threatened them because they were Arab American. Sethi brings us the story of Jeanette Vizguerra, an undocumented mother of four who took sanctuary in a Denver church in February 2017 because she feared deportation under Trump's cruel immigration enforcement regime. Sethi interviews Taylor Dumpson, a young black woman who was elected student body president at American University only to find nooses hanging across campus on her first day in office. We hear from many more people impacted by the Trump administration, including Native, black, Arab, Latinx, South Asian, Southeast Asian, Muslim, Jewish, Sikh, undocumented, refugee, transgender, queer, and people with disabilities. A necessary book for these times, *American Hate* explores this tragic moment in U.S. history by empowering survivors whose voices white supremacists and right-wing populist movements have tried to silence. It also provides ideas and practices for resistance that all of us can take to combat hate both now and in the future.

Seven stunning stories of speculative fiction by the author of *A Boy and His Dog*. In a post-apocalyptic world, four men and one woman are all that remain of the human race, brought to near extinction by an artificial intelligence. The five survivors are prisoners, kept alive and subjected to brutal torture by the hateful and sadistic machine in an endless cycle of violence. This story and six more groundbreaking and inventive tales that probe the depths of mortal experience prove why Grand Master of Science Fiction Harlan Ellison has earned the many accolades to his credit and remains one of the most original voices in American literature. *I Have No Mouth and I Must Scream* also includes "Big Sam Was My Friend," "Eyes of Dust," "World of the Myth," "Lonelyache," Hugo Award final-

ist "Delusion for a Dragon Slayer," and Hugo and Nebula Award finalist "Pretty Maggie Moneyeyes."

They Must Be Stopped is New York Times bestselling author Brigitte Gabriel's warning to the world: We can no longer ignore the growth of radical Islam--we must act soon, and powerfully. Gabriel challenges our western and politically--correct notions about Islam, demonstrating why radical Islam is so deadly and how we can halt its progress. Brigitte Gabriel speaks her mind: *Fundamentalist Islam is a religion rooted in 7th century teachings that are fundamentally op-

posed to democracy and equality. *Radical Islamists are utterly contemptuous of all "infidels" (non-Muslims) and regard them as enemies worthy of death. *Madrasas in America are increasing in number, and they are just one part of a growing radical Islamic army on US soil. *Radical Islam exploits the US legal system and America's protection of religion to spread its hatred for western values. *America must organize a unified voice that says "enough" to political correctness, and demands that government officials and elected representatives do whatever is necessary to protect us. Brigitte Gabriel has fearlessly faced down critics, death threats, and political correctness, and is one of the most sought after terrorism experts in the world. *They Must Be Stopped* is her clarion call to action. Gabriel thoroughly addresses the historical and religious basis of radical Islam, its frightening encroachment into societies around the world, and its abuses of democracy in the name of religion.

This updated edition of *Witness*, which includes a new Afterword with an address by Steven Spielberg, commemorates the 75th anniversary of the end of World War II and the liberation of Europe from the Nazis. For over 25 years, the March of the Living has organized visits for adults and students from all over the world to Poland, where millions of Jews were enslaved and murdered by Nazi Germany. The organization's goal is not only to remember and bear witness to the terrible events of the past, but also to look forward. *Witness* is a compilation of firsthand accounts from the survivors who have participated in March of the Living programs, together with responses from the people, young students in particular, of many faiths and cultures

worldwide who have traveled with the group over the years. In the new edition each photograph of a survivor, rescuer, or WWII liberator is embedded with an invisible barcode that, via mobile phone, connects the reader to the video testimony of the individual pictured. 75 videos housed on the USC Shoah Foundation or March of the Living websites can be accessed this way. The new edition has also been enriched with compelling new liberation stories and additional content honoring those who rescued Jews during WWII. Along with the new Afterword, the book includes a Preface featuring Pope Francis and Pope John Paul II, and words from Barack Obama that remind us how important "witnesses" are to a true understanding of history and how we behave to one another today and in the future.

Paul Oppenheimer's memoirs are not just another testimony of the Holocaust. They are a valuable historical document - especially concerning the fate of the children in Bergen - Belsen. They are also a fascinating life history of a Jewish family before, during and after the Holocaust.

There are few first-person accounts of the Riga Ghetto. There is 'good' reason for this: few survived. The Nazis and their just as brutal Latvian allies saw to that. Most of the Jews were rounded up, taken to the outskirts of the city, forced to the edge of ditches and massacred. The original Ghetto existed for only 35 days. Charlotte Arpadi was not a native of Riga. She had been brought up in Berlin, where her father ran a popular Hungarian restaurant. Pressures were already mounting for Jews in Germany, but after Kristallnacht, in November 1938, the Arpadi family felt increased urgency to leave for safety, so they jumped at the chance for exit visas to Latvia, where

they had relatives. They hoped next to be bound for Shanghai where they could find sanctuary. . In early 1941, the family received visas to leave. Happily, it was not China where they were headed, but rather to America, sponsored by her mother's cousin. The family pleaded with Charlotte to leave with them, but she insisted that she would stay, She had fallen in love with her brother's boss, a much older man. And remained remained steadfast. In June 1941 when Germany invaded the USSR, then in control of Latvia, she was caught. Somehow spared the fate of most of the other Jews, she worked in a hospital for a time. When the former Ghetto was re-populated with Jews from Germany and elsewhere, her luck held and she continued to work in a variety of jobs. On occasion the task even brought a short-lived spell of relative comfort which gave her hope. However, in 1943 she was sent to the newly-established concentration camp, Kaiserwald. During the next year, as the Russians closed in, she and her fellow inmates were evacuated to Stutthof, an even more horrifying concentration camp inside Poland. After enduring a tortuous forced march, she was finally liberated by the Russians. After the German surrender, Charlotte realized that she could not remain in the East, under the thumb of the Russians. She made her way to Berlin and then to Paris and was finally able to find and contact her parents who had settled in Mt. Vernon, NY. Even after she arrived in America, her troubles were not quite over. It was discovered that she had at some point contracted a virulent form of tuberculosis. It was years before she was able to resume a normal life. Charlotte Arpadi Baum died in 2001, but she left us with her powerfully told story of determination and survival.

Eva Mozes Kor, who had survived the holocaust as a young child, passed away on July 4, 2019, during her annual trip with students to Auschwitz. But Eva's legacy will live on and so will her life-changing message. Eva Mozes Kor was just ten years old when she was sent to Auschwitz. While her parents and two older sisters were murdered there, she and her twin sister Miriam were subjected to medical experiments at the hands of Dr. Joseph Mengele. Later on, when Miriam fell ill due to the long-term effects of the experiments, Eva embarked on a search for their torturers. But what she discovered was the remedy for her troubled soul; she was able to forgive them. Told through anecdotes and in response to letters and questions at her public appearances, she imparts a powerful lesson for all survivors that guilt, anger, resentment, and shame are a waste of energy. Forgiveness of our tormentors and ourselves is the end of victimization, a release from pain, and fosters resilience. This kind of forgiveness is not an act of self-denial. It actively releases people from trauma, allowing them to escape from the grip of their former tormentors, cast off the role of victim, and begin the struggle against forgetting in earnest. "She dedicated herself decades later to telling of the Holocaust horrors spawned by religious and racial hatred, while preaching the power of forgiveness as a means of healing from devastating trauma."—Richard Goldstein, *New York Times* obituaries, July 7, 2019

The Oklahoma City bombing, intentional crashing of airliners on September 11, 2001, and anthrax attacks in the fall of 2001 have made Americans acutely aware of the impacts of terrorism. These events and continued threats of terrorism have raised questions about the impact on the psychological health of the nation and how well the public health infrastructure is able to meet the psychological needs that will likely result. Preparing for the Psychological Consequences of Terrorism highlights some of the critical issues in responding to the psychological needs that result from terrorism and provides possible options for intervention. The committee offers an example for a public health strategy that may serve as a base from which plans to prevent and respond to the psychological consequences of a variety of terrorism events can be formulated. The report includes recommendations for the training and education of service providers, ensuring appropriate guidelines for the protection of service providers, and developing public health surveillance for preevent, event, and postevent factors related to psychologi-

cal consequences.

Wiener's autobiography. He survived five forced labor camps for Jews during WWII.

A family plants an American elm on the Great Plains of Oklahoma just as the capital city is taking root -- the little tree grows as Oklahoma City grows until 9:02 a.m. on April 19, 1995, the day America fell silent at the hands of one of its own. With her branches torn and tattered and filled with evidence from the bombing, the charred elm faces calls from some that she be cut down. In the end, as the rubble of the Alfred P. Murrah Building is cleared, this solitary tree remains -- but only because of a few who marvel that, like them, she is still there. The next spring when the first buds appear proving the tree is alive, the word spreads like a prairie wildfire through the city and the world. And the tree, now a beacon of hope and strength, is christened with a new name: The Survivor Tree.

"The courageous Robert Spencer busts myths and tells truths about jihadists that no one else will tell." -- Michelle

Malkin, bestselling author and columnist While many choose to simply blame the West for provoking terrorists, Robert Spencer's new book *The Politically Incorrect Guide to Islam (and the Crusades)*™ reveals why it is time to ignore political correctness and identify the enemy, if we hope to ever defeat them. In a fast-paced, politically incorrect tour of Islamic teachings and Crusades history, Spencer reveals the roots of Islamic violence and hatred. Spencer refutes the myths popularized by left-wing academics and Islamic apologists who justify their political agendas with contrived historical "facts." Exposing myth after myth, *The Politically Incorrect Guide to Islam (and the Crusades)*™ tackles Islam's institutionalized mistreatment of non-Muslims, the stifling effect Islam has on science and free inquiry, the ghastly lure of Islam's X-rated Paradise for suicide bombers and jihad terrorists, the brutal Islamic conquests of the Christian lands of the Middle East and North Africa, and more. In *The Politically Incorrect Guide to Islam (and the Crusades)*™, you will learn: How Muham-

mad did not teach "peace and tolerance"—instead he led armies and ordered the assassination of his enemies Why American Muslim groups and left-wing academics are engaged in a huge cover-up of Islamic doctrine and history—How today's jihad terrorists following the Qur'an's command to make war on Jews and Christians have the same motives and goals as the Muslims who fought the Crusaders Why the Crusades were not acts of unprovoked aggression by Europe against the Islamic world, but a delayed response to centuries of Muslim aggression What must be done today—from reading the Qur'an to reclassifying Muslim organizations—in order to defeat jihad terrorists
