The state of Wyoming is a large producer of extractive energy, including coal, oil, and natural gas. In his book, [Behind the Carbon Curtain: The Energy Industry, Political Censorship, and Free ...

Behind the Carbon Curtain is an exploration of how corporate wealth and power are being used to censor the free expression of ideas in America. At a time in which there is much concern expressed for constitutional freedoms regarding guns, health care, and taxes perhaps the gravest threat to the most fundamental right in a vibrant democracy—free speech—has received little attention.
