Beyond Compare Tutorial

Visual Studio with Git for Windows. If you're using GIT as your source code management system instead of the (fairly dated) TFVC then Visual Studio doesn't have options to configure anything like this. Instead it (rightly in my opinion) uses the GIT config file's setting. So if you already have GIT setup to use Beyond Compare or any other third party comparison software it will just pick this ...

This user manual outlines the features and functionality available in SpiraTeam®, and demonstrates how to use the application for managing the quality assurance and project management processes on a typical project.

possessives - User's Guide vs Users' Guide - English ...
