It's a mission that could bring the world to the brink of nuclear war. Now time is running out. It starts with a high-stakes theft: weapons-grade plutonium is stolen from Russia. The Russian army is about to attack Chechnya to get it back. But U.S. intelligence discovers that the stolen shipment is actually on a rogue Russian freighter in the Black Sea. It turns into a global nightmare: a secret mission gone awry; an American submarine commander arrested and hauled before a military tribunal in Moscow; and a game of brinkmanship so dangerous that war might be its only possible conclusion. As the U.S. Navy searches for weapons-grade plutonium that has been smuggled out of Russia by terrorists, a submarine mishap escalates the international crisis. With the world watching, JAG Officer Zack Brewer is called to Moscow to defend submarine skipper Pete Miranda and his entire crew. It is a heart-stopping race against the clock. With Russian missiles activated and programmed for American cities, Brewer stalls for time as the U.S. Navy frantically searches the high seas for a floating hydrogen bomb that could threaten New York Harbor.

In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for fishing as a parable that can help us shift from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of *A River Runs Through It* in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for? Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.

Perhaps the most charismatic automobile ever, the Volkswagen Beetle was the longest-running, most-manufactured automobile on a single platform of all time. From 1938 to 2003, more than 21.5 million "Bugs" were assembled, distributed, and sold on nearly every continent in the world. Throughout the Beetle's successful run, many of these cars have been relegated to project car status due to their age or condition. Airkooled Kustoms, a VW restoration shop in Hazel Green, Alabama, brings its expertise in restoring these cars to book form with this all-encompassing compilation. Restoring your Beetle is covered through step-by-step sequences from unbolting that first nut through polishing the paint on your freshly restored Bug. The specialists at Airkooled Kustoms walk you through the proper disassembly methods, restoring versus replacing components, and reassembling your restored Bug, covering everything related to the body, undercarriage, and interior along the way. It's about time a thorough, hands-on restoration book has been authored by authorities who know the Beetle like the back of their hands. With this book, you will have everything you need to bring your old or new VW Beetle project back to life. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial; color: #000000}
