"Dishpan Dad: A Guy's Guide to Raising Infants, Toddlers and Preschoolers" was written by and for a stay-at-home dad, but it's a book for essentially any parent who has children under age 5. In more than 80 chapters, the book delves into issues unique to at-home dads: being surrounded by moms-whose husbands eye you with suspicion or derision-crises of self worth, cultural dogma, stereotypes, emotional and intellectual challenges and more. It also gets down to the business of raising mannered, well-behaved, resilient kids. In "Dishpan Dad," fathers will learn where to get good parenting advice-and where not to get it-how to avoid doing laundry, at least for a while, the importance of mouth breathing, why candy for breakfast is a bad idea, the importance of a manly diaper bag and how much time and effort it takes to get kids ready and out the door. There is more, of course. Lots more, all packaged in a book that's educational, fun and easy to read. This political analysis of teen culture examines the historical and ideological development of American youth society, the economic and ideological relationship between television and popular music, and the ideological rivalry between Nickelodeon and Disney. More than mere entertainment, teen sitcoms and pop music portray a complex and often contradictory set of cultural discourses. They engage in a process of ideology marketing and “hip versus square” politics. Case studies include Saved by the Bell, Britney Spears, the movie School of Rock, early “pop music sitcoms” like The Monkees and The Partridge Family, and recent staples of teen culture such as iCarly and Hannah Montana.
