7000 Series Reach-Fork Trucks Video. Raymond's 7000 Series Reach trucks have proven productivity and efficiency through the design of the truck; increased battery life with regenerative lowering which produces energy when the forks are lowered, and the ACR System™ which has fewer parts to service and replace decreasing downtime.

The BT Reflex range of reach trucks has high acceleration and exceptional driveability for optimum horizontal transportation and stacking, in warehouses, distribution centers and logistic companies. Our reach truck series have trucks suitable for block stacking, drive-in racking, long handling as well as conventional pallet handling no matter if they are in chilled, cold store or hot environments.

The BT Reflex reach trucks from Toyota Material Handling fit all applications and carry out their tasks with exceptional efficiency. No matter the type of operations (narrow-width, cold...

The multi-directional reach trucks from the BT Reflex F-series are equipped with clearview masts and 360° steering. Besides conventional pallets, the hydraulic fork spreader enables the handling of long loads such as steel beams and plastic pipes. The operator faces the forks to obtain the best view of long and unusual loads.
