QG1N1F - HESTER KIRBY

Fully matched to the new KS3 Science Framework and QCA Program of Study, 'Collins KS3 Science' provides exciting science for all levels to ensure the right progression and complete success at Key Stage 3.

Fully updated and revised Key Stage 3 Science from Collins to help deliver the new National Curriculum.

Achieve fluency and reinforce learning with homework questions matched to topics in the Pupil Books. Provide practice for all tiers within the third year of KS3 with this one book.

Help pupils build skills for KS3 Science practical work to be ready for the AQA GCSE 9-1 Required Practicals. Provide a consistent and supportive approach to KS3 Biology, Chemistry and Physics practicals with clear methods, questions that test understanding and applying skills in different contexts. Establish a consistent approach to KS3 Science practicals with everything together in one write-in book. Help build confidence and familiarity from Year 7 upwards with a focus on scientific vocabulary, drawing and analysing graphs, and GCSE 9-1 command words. Cheaper than photocopying, the lab book can be used flexibly with any scheme of learning. Each practical activity: * Explains the purpose of the practical and relates it to the science * Develops core skills including maths skills * States common mistakes and how to avoid them * Supports pupils to record and evaluate results * Checks understanding with key questions * Develops scientific reasoning with spot the mistake questions * Encourages pupils to apply their skills to unfamiliar scientific contexts * Helps pupils to evaluate their learning with self-reflection sections

Created in partnership with White Rose Maths, student book 2 for KS3 Maths follows the White Rose schemes of learning for Year 8 where mathematical concepts are broken down into small steps to help all pupils make progress. Written by White Rose teachers, it helps develop confident and capable mathematicians who can do and enjoy key stage 3 maths.

Level: KS2 Subject: Maths When it comes to getting the best results, practice really does make perfect! Matched to the requirements of the National Curriculum, this KS2 Maths book contains clear and accessible explanations of every topic with lots of practice opportunities throughout. Using a repeated practice method that is proven to work, this book helps to improve SATs performance. Five spaced practice opportunities: - Quick tests to check understanding - Practice questions organised into three levels of increasing difficulty - Review questions later in the book - Mixed practice questions at the end of the book - Free downloadable flash cards for use in the classroom and at home

Secure the key science skills and knowledge students need to succeed in the new KS3 Science curriculum with Pupil Book 1. * Engage students of all levels in KS3 Science with clearly differentiated material. * Introduce fundamental ideas in the blue section, develop them in the orange section and extend them in the purple section. * Embed progression with links to prior learning to help students build on what they already know. * Put science into context with engaging introductions and illustrations. * Check understanding with questions on every topic. Questions test understanding of key concepts, processes, applications and evaluation skills. * Build skills for GCSE Science with longer answer questions. * Model key ideas and skills in the mastery checklists at the end of topics.

Secure the key science skills and knowledge students need to succeed in the new KS3 Science curriculum with Pupil Book 3.

KS3 Science Study Guide (with online edition) - Foundation

Inspire and engage your students with this brand new Lower Secondary Science course from Collins offering comprehensive coverage of the curriculum framework including all suggested practicals and scientific enquiry skills.

'Has the power to move hearts and change minds' Guardian 'Tremendously uplifting and a novel of all-too-rare power' Sunday Express 'An amazing book . . . I absolutely loved it. I cried my eyes out' Tom Fletcher Read the award-winning, multi-million copy best-selling phenomenon that is WONDER. 'My name is August. I won't describe what I look like. Whatever you're thinking, it's probably worse.' Auggie wants to be an ordinary ten-year-old. He does ordinary things - eating ice cream, playing on his Xbox. He feels ordinary - inside. But ordinary kids don't make other ordinary kids run away screaming in playgrounds. Ordinary kids aren't stared at wherever they go. Born with a terrible facial abnormality, Auggie has been home-schooled by his parents his whole life. Now, for the first time, he's being sent to a real school - and he's dreading it. All he wants is to be accepted - but can he convince his new classmates that he's just like them, underneath it all? A funny, frank, astonishingly moving debut - and a true global phenomenon - to read in one sitting, pass on to others, and remember long after the final page.

This suite of resources provide a clear two-year framework to help you and your students meet and exceed AQA's mastery goals using content matched to AQA's big ideas and enquiry processes. This title is AQA approved.
