Paul Muldoon's collection *Hay* refines, and re-defines, a lyrical strain in which an ostensible lightness of touch still has the strength to bear the weightiest subject matter. At once conventional and cutting edge, beautiful and bleak, *Hay* is a book that demonstrates fully the range of Muldoon's poetic intelligence and imagination.

Gregory Fried offers in this book a careful investigation of Martin Heidegger's understanding of politics. Disturbing issues surround Heidegger's commitment to National Socialism, his disdain for liberal democracy, and his rejection of the Enlightenment. Fried confronts these issues, focusing not on the historical debate over Heidegger's personal involvement with Nazism, but on whether and how the formulation of Heidegger's ontology relates to his political thinking as expressed in his philosophical works. The inquiry begins with Heidegger's interpretation of Heraclitus, particularly the term *polemos* ("war," or, in Heidegger's usage, "confrontation"). Fried contends that Heidegger invests *polemos* with broad ontological significance and that his appropriation of the word provides important insights into major strands of his thinking—his conception of the human being, understanding of truth, and interpretation of history—as well as the meaning of the so-called turn in his thought. Although Fried finds that Heidegger's politics are continuous with his thought, he also argues that Heidegger's work raises important questions about contemporary identity politics. Fried also shows that many postmodernists, despite attempts to distance themselves from Heidegger, fail to avoid some of the same political pitfalls his thinking entailed.

The monumental bestseller *Quiet* has been recast in a new edition that empowers introverted kids and teens Susan Cain sparked a worldwide conversation when she published *Quiet: The Power of Introverts in a World That Can't Stop Talking*. The triumphant return of a book that gave us permission to throw out the rulebook, in activities ranging from play to architecture to revolution. When this book first appeared in 1972, it was part of the spirit that would define a new architecture and design era—a new way of thinking ready to move beyond the purist doctrines and formal models of modernism. Charles Jencks and Nathan Silver's book

was a manifesto for a generation that took pleasure in doing things ad hoc, using materials at hand to solve real-world problems. The implications were subversive. Turned-off citizens of the 1970s immediately adopted the book as a DIY guide. The word "ad hocism" entered the vocabulary, the concept of ad hocism became part of the designer's toolkit, and Ad hocism became a cult classic. Now Ad hocism is available again, with new texts by Jencks and Silver reflecting on the past forty years of ad hocism and new illustrations demonstrating ad hocism's continuing relevance. Ad hocism has always been around. (Think Robinson Crusoe, making a raft and then a shelter from the wreck of his ship.) As a design principle, ad hocism starts with everyday improvisations: a bottle as a candleholder, a dictionary as a doorstop, a tractor seat on wheels as a dining room chair. But it is also an undeveloped force within the way we approach almost every activity, from play to architecture to city planning to political revolution. Engagingly written, filled with pictures and examples from areas as diverse as auto mechanics and biology, Ad hocism urges us to pay less attention to the rulebook and more to the real principle of how we actually do things. It declares that problems are not necessarily solved in a genius's "eureka!" moment but by trial and error, adjustment and readjustment.

Is God to blame? This is often the question that comes to mind when we confront real suffering in our own lives or in the lives of those we love. Pastor Gregory A. Boyd helps us deal with this question honestly and biblically, while avoiding glib answers. Writing for ordinary Christians, Boyd wrestles with a variety of answers that have been offered by theologians and pastors in the past. He finds that a fully Christian approach must keep the person and work of Jesus Christ at the very center of what we say about human suffering and God's place in it. Yet this is often just what is missing and what makes so much talk about the subject seem inadequate and at times even misleading. What comes through in *Is God to Blame?* is a hopeful picture of a sovereign God who is relentlessly opposed to evil, who knows our sufferings and who can be trusted to bring us through them to renewed life.

SUSAN CAIN'S NEW BOOK, BITTERSWEET, IS AVAILABLE TO PRE-ORDER NOW A SUNDAY TIMES AND NEW YORK TIMES BESTSELLER, THIS BOOK WILL CHANGE HOW YOU SEE INTROVERTS - AND YOURSELF - FOREVER. Our lives are driven by a fact that most of us can't name and don't understand. It defines who our friends and lovers are, which careers we choose, and whether we blush when we're embarrassed. That fact is whether we're an introvert or an extrovert. The most fundamental dimension of personality, at least a third of us are introverts, and yet shyness, sensitivity and seriousness are often seen as a negative. Some of the world's most talented people are introverts - without them we wouldn't have the Apple computer, the theory of relativity and Van Gogh's sunflowers. In *Quiet*, Susan Cain shows how society misunderstands and undervalues introverts while giving them the tools to better understand themselves and take full advantage of their strengths. Passionately argued, superbly researched, and filled with real stories, whether an introvert or extrovert, this book will change how you see human beings for good. \*\*\*\*\* 'I can't get *Quiet* out of my head. It is an important book - so persuasive and timely and heartfelt it should inevitably effect change in schools and offices' Jon Ronson, *The Guardian* 'Susan Cain's *Quiet* has sparked a quiet revolution . . . Perhaps rather than sitting back and asking people to speak up, managers and company leaders might lean forward and listen' Megan Walsh, *The Times* 'Maybe the extrovert ideal is no longer as powerful as it was; perhaps it is time we all stopped to listen to the still, small voice of calm' Daisy Goodwin, *The Sunday Times*

Desperate for love and eager for experience of a wider world, Philip Carey grows up in the oppressive confines of his uncle's vicarage. The sensitive orphan is burdened by a club foot that sets him apart from his schoolmates and heightens his loneliness. Seeking passion and inspiration, he pursues his dreams of becoming an artist in Heidelberg and Paris but returns to London, humbled by his own mediocrity. But Philip's degradation has only just begun, as an obsession with a vulgar, cold-hearted waitress threatens to destroy what remains of his idealism. Like his protagonist's physical deformity, W. Somerset Maugham's homosexuality was a constant source of anxiety, alienation, and shame. He termed his masterpiece "not an autobiography, but an autobiographical novel; fact and fiction are inexorably mingled; the emotions are my own." By combining residual Victorian values with the early twentieth century's mood of irony and despair, Maugham offers a timeless view of emotional isolation and the possibility of redemption through self-knowledge and maturity.

Jennifer C. Vaught illustrates how architectural rhetoric in Shakespeare and Spenser provides a bridge between the human body and mind and the nonhuman world of stone and timber. The recurring figure of the body as a besieged castle in Shakespeare's drama and Spenser's allegory reveals that their works are mutually based on medieval architectural allegories exemplified by the morality

play *The Castle of Perseverance*. Intertextual and analogous connections between the generically hybrid works of Shakespeare and Spenser demonstrate how they conceived of individuals not in isolation from the physical environment but in profound relation to it. This book approaches the interlacing of identity and place in terms of ecocriticism, posthumanism, cognitive theory, and Cicero's art of memory. *Architectural Rhetoric in Shakespeare and Spenser* examines figures of the permeable body as a fortified, yet vulnerable structure in Shakespeare's comedies, histories, tragedies, romances, and Sonnets and in Spenser's *Faerie Queene* and *Complaints*.

When the popularity of Milton Berle's television show began to slip, Berle quipped, "At least I'm losing my ratings to God!" He was referring to the popularity of "Life Is Worth Living" and its host, Bishop Fulton J. Sheen. The show aired from 1952 to 1957, and Sheen won an Emmy, beating competition that included Lucille Ball, Jimmy Durante, and Edward R. Murrow. What was the secret to Sheen's on-air success? Christopher Lynch examines how he reached a diverse audience by using television to synthesize traditional American Protestantism with a reassuring vision of Catholicism as patriotic and traditional. Sheen provided his viewers with a sense of stability by sentimentalizing the medieval world and holding it out as a model for contemporary society. Offering clear-cut moral direction in order to eliminate the anxiety of cultural change, he discussed topics ranging from the role of women to the perils of Communism. Sheen's rhetoric united both Protestant and Catholic audiences, reflecting--and forming--a vision of mainstream, postwar America. Lynch argues that Sheen's persuasive television presentations helped Catholics gain social acceptance and paved the way for religious ecumenism in America. Yet, Sheen's work also sowed the seeds for the crisis of competing ideologies in the modern American Catholic Church.

This is the first publication in English of the anthology that contains Breton's definitive statement on l'humour noir, one of the seminal concepts of Surrealism, and his provocative assessments of the writers he most admired. While some of the authors featured in the *Anthology of Black Humor* are already well known to American readers--Swift, Kafka, Rimbaud, Poe, Lewis Carroll, and Baudelaire among them (and even then, Breton's selections are often surprising)--many others are sure to come as a revelation. The entries range from the acerbic aphorisms of Swift, Lichtenberg, and Duchamp to the theatrical slapstick of Christian Dietrich Grabbe, from the wry missives of Rimbaud and Jacques Vache to the manic paranoia of Dali, from the ferocious iconoclasm of Alfred Jarry and Arthur Craven to the offhand hilarity of Apollinaire at his most spontaneous. For each of the forty-five authors included, Breton has provided an enlightening biographical and critical preface, situating both the writer and the work in the context of black humor--a partly macabre, partly ironic, and often absurd turn of spirit that Breton defined as "a superior revolt of the mind." Andre Breton (1896-1966), the founder and principal theorist of the Surrealist movement, is one of the major literary figures of the past century. His best-known works in English translation include *Nadja*, *Mad Love*, *The Manifestoes of Surrealism*, *The Magnetic Fields* (with Philippe Soupault), and *Earthlight*. Mark Polizzotti is the author of *Revolution of the Mind: The Life of Andre Breton*.
