## **BZHTOC - KARLEE KENYON**

---

MIL (mirrorless interchangeable-lens) cameras are a good alternative to the Ultra zoom or bridge camera, as they have similar sensor sizes as DSLRs but in a much smaller camera body. Tough cameras are another option - they have protected features so they can be taken into most situations without fear of dropping or exposure to heat, cold, moisture and sand.

The lower the number (f/1.4, f/2), the wider the aperture. And the more light the lens will allow in. When buying a lens, you should try to get this number as low as you can afford to go without sacrificing the focal length that you want. The lens that I use most is my 24-70mm f/2.8.

The autofocus in Live View and movie capture modes is also sluggish, though the Nikon AF-P DX 18-55mm f/3.5-5.6G VR lens speeds it up and is the best kit lens to go for. Overall, the Nikon D3500's image quality and performance are extremely good for the price, and the 5fps burst rate is pretty sporty for an entry-level DSLR.
