This volume gathers in compact form the official historical records of field artillery units in the United States Army in order to perpetuate and publicize their traditions, honors, and heraldic entitlements. It includes the lineages and honors of Regular Army and Army Reserve field artillery commands, brigades, and groups, and corps and division artillery that have been active since 1965. It also includes the fifty-eight elements of each regiment that have been active since the inception of the Combat Arms Regimental System in 1957. This two-part second edition updates the lineages, honors, and heraldic items of the Regular Army's field artillery regiments and further expands them to include organizations above the regimental level, as well as Army National Guard units. All are current through September 1, 2003. This is the companion book of The Organizational History of Field Artillery, 1775-2003.

Continues Balkoski's acclaimed multivolume history of the U.S. 29th Infantry Division in World War II Covers a period of brutal combat along the German border Introduces readers to a colorful cast of American soldiers Balkoski blends meticulous research with masterful storytelling A must-read for all World War II fans

The hallmarks of America's War on Terror have been repeated long deployments and a high percentage of troops returning with psychological problems. Family members of combat veterans are at a higher risk of potentially lethal domestic violence than almost any other demographic; it's estimated that one in four children of active-duty service members have symptoms of depression; and nearly one million veterans of Iraq and Afghanistan require increased care due to physical or psychological trauma. But, despite these staggering trends, civilian America has not been mobilized to take care of the families left behind; the American Homefront, which traditionally has been rallied to support the nation's war efforts, has disappeared. In Homefront 911 Stacy Bannerman, a nationally-recognized advocate for military families, provides an insider's view of how more than a decade of war has contributed to the emerging crisis we are experiencing in today's military and veteran families as they battle with overwhelmed VA offices, a public they feel doesn't understand their sacrifices, and a nation that still isn't fully prepared to help those who have given so much. Bannerman, whose husband served in Iraq, describes how extended deployments cause cumulative, long-lasting strain on fami-

lies who may not see their parent, child, or spouse for months on end. She goes on to share the tools she and others have found to begin to heal their families, and advocates policies for advancing programs, services, and civilian support, all to help repair the broken agreement that the nation will care for its returning soldiers and their families. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history—books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Expanded edition with a new chapter on the final battles of the Normandy campaign By 1945, the US Army had sixty-eight infantry divisions, forty-two of which fought in the great campaign in north-west Europe that began with the amphibious landings on D-Day and ended eleven months later with Germany's surrender. *Beyond the Beachhead* examines the experience of one infantry division—the 29th—during forty-five days of combat from Omaha Beach on D-Day to the liberation of St. Lô. Using interviews, official records, and unit histories and supplementing his narrative with meticulously detailed maps, Balkoski follows the 29th from the bloody landings at Omaha through the hedgerows of Normandy, illustrating the brutal realities of life on the front line.

The first settlers watched in awe as magnificent eagles soared overhead and nested high up on a butte. They decided to name their new town Eagle Point. They took out Donation Land Claims and began farming and ranching some of the best land in southern Oregon. As time went by, Eagle Point became known for its fine fruits and vegetables. Eagle Point was honored to be called the King of Ap-

ples and the Onion Capital. When the king of England discovered that Eagle Point grew some of the best Bosc pears in the world, he placed a large order. Today, a stroll through Eagle Point's downtown or across its covered bridge will take you back in time to experience what life was like for those who called Eagle Point home many years ago.

The lineages and honors for Army National Guard divisions and separate combined arms brigades that were active on 1 October 1997 are also included.--Preface.

The award of a military decoration does not define valor—it only recognizes it. Many acts of notable courage and self-sacrifice occur on the battlefield but are often obscured in the fog of battle or lost to history, unrecognized and unheralded. The largely overlooked men and women in this volume did incredible things in dire circumstances. Although in some cases decorations were awarded—including several Medals of Honor—their stories remain unknown.
