Canon Lens Buying Guide

Despite buying cameras which have been specifically designed to take and make use of different lenses, a large number of photographers only ever use the kit lens that their DSLR or interchangeable ...

Wide angle lenses are best for capturing the beauty of a vast landscape. this is because your eyes are only capable of taking in around 120 degrees of a scene at one, but a wide-angle lens can take in much more. Also when shooting grand interiors - there's no need to stand up against a wall to get in the frame, as the lens will do it for you.

Find our comprehensive collection of camera and lens buying guides, arranged both by price, and by use-case. Whatever kind of photography you enjoy, we'll help you find something to suit your needs — and your budget.

Buying guide for the best Canon lenses. Last Updated October 2020. When you're ready to increase your photographic skills, you may take some classes or do some reading about this enjoyable art form. You also may decide to invest in new, advanced camera gear.

Canon offers a wide range of photography equipment, covering everything from basic point-and-shoot cameras to specialized digital single-lens reflex (DSLR) cameras. Plus, with a selection of compatible lenses, flashes, and accessories to choose from, we're confident you'll find the camera gear that's best suited for you.

Canon offers two additional lenses in this category: the EF 100mm f/2 USM (24° full-frame, 15° AP-S-C), which like Canon's 85mm offerings, is designed for portraits and other short-telephoto needs, and the well-regarded EF 135mm f/2L USM (18°, 11.25°), an L-series lens considered to be one of Canon's best camera lenses in terms of resolving power and overall image quality.
