Case/Fair/Oster, believe that the best way to understand how market opportunities operate and the best way to understand basic economic theo-

ry is to work through the perfectly competitive model first, including discussions of output markets (Ch. 16, goods & services) and input markets (land, labor & capital), and the connections between them, before turning to noncompetitive market structures (Ch 13-15), such as monopoly and oligopoly (Ch 14 & 15).
