Statistics about dispersion are presented in the next section, Chapter 3.2. Measures of central tendency. For a sample of observations we can begin the summary by identifying the "typical" value. Various statistics are used to describe the middle and collectively these are referred to as measures of central tendency.

Chapter : 3 MEASURES OF CENTRAL TEN-
 DENCY The frequency distribution sum-
 marizes the given mass of data, but for
 practical purposes there is usually a need
 for further condensation, particularly when

we want to compare two or more different
 distributions. We may even reduce the en-
 tire distribution to one number which repre-
 sents the distribution.
