E5R6K0 - ABBEY ALLEN

Eight-year-old Margaret Pokiak has set her sights on learning to read, even though it means leaving her village in the high Arctic. Faced with unceasing pressure, her father finally agrees to let her make the five-day journey to attend school, but he warns Margaret of the terrors of residential schools. At school Margaret soon encounters the Raven, a black-cloaked nun with a hooked nose and bony fingers that resemble claws. She immediately dislikes the strong-willed young Margaret. Intending to humiliate her, the heartless Raven gives gray stockings to all the girls — all except Margaret, who gets red ones. In an instant Margaret is the laughingstock of the entire school. In the face of such cruelty, Margaret refuses to be intimidated and bravely gets rid of the stockings. Although a sympathetic nun stands up for Margaret, in the end it is this brave young girl who gives the Raven a lesson in the power of human dignity. Complemented by archival photos from Margaret Pokiak-Fenton's collection and striking artworks from Liz Amini-Holmes, this inspiring first-person account of a plucky girl's determination to confront her tormentor will linger with young readers.

Teaching literature unit based on the popular children's story, *The Outsiders*.

A timely overview of populism, one of the most contested concepts in political journalism and the social sciences.

Wuthering Heights is the name of Mr. Heathcliff's dwelling. "Wuthering" being a significant provincial adjective, descriptive of the atmospheric tumult to which its station is exposed in stormy weather. Pure, bracing ventilation they must have up there at all times, indeed: one may guess the power of the north wind blowing over the edge, by the excessive slant of a few stunted firs at the end of the house; and by a range of gaunt thorns all

stretching their limbs one way, as if craving alms of the sun. Happily, the architect had foresight to build it strong: the narrow windows are deeply set in the wall, and the corners defended with large jutting stones. Before passing the threshold, I paused to admire a quantity of grotesque carving lavished over the front, and especially about the principal door; above which, among a wilderness of crumbling griffins and shameless little boys, I detected the date "1500" and the name "Hareton Earnshaw." I would have made a few comments, and requested a short history of the place from the surly owner; but his attitude at the door appeared to demand my speedy entrance, or complete departure, and I had no desire to aggravate his impatience previous to inspecting the penetralium. One stop brought us into the family sitting-room, without any introductory lobby or passage: they call it here "the house" pre-eminently. It includes kitchen and parlour, generally; but I believe at *Wuthering Heights* the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the dresser reposed a huge, liver-

coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs haunted other recesses.

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for

Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ► an explanation of the key aspects of the CEFR for teaching and learning; ► a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ► a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ► promote and support the learning and teaching of modern languages; ► enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ► protect linguistic and cultural diversity in Europe; and ► promote the right to quality education for all. WINNER OF THE THURBER PRIZE The compelling, inspiring, (often comic) coming-of-age story of Trevor Noah, set during the twilight of apartheid and the tumultuous days of freedom that followed. One of the comedy world's brightest new voices, Trevor Noah is a light-footed but sharp-minded observer of the absurdities of politics, race and identity, sharing jokes and insights drawn from the wealth of experience acquired in his relatively young life. As host of the US hit show *The Daily Show* with Trevor Noah, he provides viewers around the globe with their nightly dose of biting satire, but here Noah turns his focus inward, giving readers a deeply personal, heartfelt and humorous look at the world that shaped him. Noah was born a crime, son of a white Swiss father and a black Xhosa mother, at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the first years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, take him away. A collection of eighteen personal stories, *Born a Crime* tells the story of a mischievous young boy growing into a

restless young man as he struggles to find his place in a world where he was never supposed to exist. *Born a Crime* is equally the story of that young man's fearless, rebellious and fervently religious mother - a woman determined to save her son from the cycle of poverty, violence and abuse that ultimately threatens her own life. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Noah illuminates his curious world with an incisive wit and an unflinching honesty. His stories weave together to form a personal portrait of an unlikely childhood in a dangerous time, as moving and unforgettable as the very best memoirs and as funny as Noah's own hilarious stand-up. *Born a Crime* is a must read.

Winner of the Whitbread Prize for best first fiction, *Oranges Are Not the Only Fruit* is a coming-out novel from Winterson, the acclaimed author of *The Passion and Sexing the Cherry*. The narrator, Jeanette, cuts her teeth on the knowledge that she is one of God's elect, but as this budding evangelical comes of age, and comes to terms with her preference for her own sex, the peculiar balance of her God-fearing household crumbles.

This is an accessible and wide-ranging introduction to the structures and use of the French language, suitable for all serious students of French linguistics.

Hawaiian Language: Past, Present, Future presents aspects of Hawaiian and its history that are rarely treated in language classes. The major characters in this book make up a diverse cast: Dutch merchants, Captain Cook's naturalist and philologist William Anderson, 'Ōpūkaha'ia (the inspiration for the Hawaiian Mission), the American lexicographer Noah Webster, philologists in New England, missionary-linguists and their Hawaiian consultants, and many minor players. The account begins in prehistory, placing the probable origins of the ancestor of Polynesian languages in mainland Asia. An evolving family tree reflects the linguistic changes that took place as these people moved east. The current versions are examined from a Hawaiian-centered point of view, comparing the sound system of the language with those of its major relatives in the Polynesian triangle. More recent historical topics begin with the first written samples of a Polynesian language in 1616, which led to the birth of the idea of a widespread language family. The next topic is how the Hawaiian alphabet was de-

veloped. The first efforts suffered from having too many letters, a problem that was solved in 1826 through brilliant reasoning by its framers and their Hawaiian consultants. The opposite problem was that the alphabet didn't have enough letters: analysts either couldn't hear or misinterpreted the glottal stop and long vowels. The end product of the development of the alphabet—literacy—is more complicated than some statistics would have us believe. As for its success or failure, both points of view, from contemporary observers, are presented. Still, it cannot be denied that literacy had a tremendous and lasting effect on Hawaiian culture. The last part of the book concentrates on the most-used Hawaiian reference works—dictionaries. It describes current projects that combine print and manuscript collections on a searchable website. These projects can include the growing body of material that is being made available through recent and ongoing research. As for the future, a proposed monolingual dictionary would allow users to avoid an English bridge to understanding, and move directly to a definition that includes Hawaiian cultural features and a Hawaiian worldview.

"An outstanding book about CEOs who excelled at capital allocation." — Warren Buffett #1 on Warren Buffett's Recommended Reading List, Berkshire Hathaway Annual Shareholder Letter, 2012 Named one of "19 Books Billionaire Charlie Munger Thinks You Should Read" in *Business Insider*. "A book that details the extraordinary success of CEOs who took a radically different approach to corporate management." — Charlie Munger, Vice-Chairman of Berkshire Hathaway Corporation "Thorndike explores the importance of thoughtful capital allocation through the stories of eight successful CEOs. A good read for any business leader but especially those willing to chart their own course." — Michael Dell, chairman of the board of directors and chief executive officer of Dell What makes a successful CEO? Most people call to mind a familiar definition: "a seasoned manager with deep industry exper-

tise.” Others might point to the qualities of today’s so-called celebrity CEOs—charisma, virtuoso communication skills, and a confident management style. But what really matters when you run an organization? What is the hallmark of exceptional CEO performance? Quite simply, it is the returns for the shareholders of that company over the long term. In this refreshing, counterintuitive book, author Will Thorndike brings to bear the analytical wisdom of a successful career in investing, closely evaluating the performance of companies and their leaders. You will meet eight individualistic CEOs whose firms’ average returns outperformed the S&P 500 by a factor of twenty—in other words, an investment of \$10,000 with each of these CEOs, on average, would have been worth over \$1.5 million twenty-five years later. You may not know all their names, but you will recognize their companies: General Cinema, Ralston Purina, The Washington Post Company, Berkshire Hathaway, General Dynamics, Capital Cities Broadcasting, TCI, and Teledyne. In *The Outsiders*, you’ll learn the traits and methods—striking for their consistency and relentless rationality—that helped these unique leaders achieve such exceptional performance. Humble, unassuming, and often frugal, these “outsiders” shunned Wall Street and the press, and shied away from the hottest new management trends. Instead, they shared specific traits that put them and the companies they led on winning trajectories: a laser-sharp focus on per share value as opposed to earnings or sales growth; an exceptional talent for allocating capital and human resources; and the belief that cash flow, not reported earnings, determines a company’s long-term value. Drawing on years of research and experience, Thorndike tells eye-opening stories, extracting lessons and revealing a compelling alternative model for anyone interested in leading a company or investing in one—and reaping extraordinary returns.

A notable contribution to our understanding of ourselves. This book explores the realm of human behavior in social situations and the way that we appear to others. Dr. Goffman uses the metaphor of theatrical performance as a framework. Each person in everyday social intercourse presents himself and his activity to others, attempts to guide and control the impressions they form of him, and employs certain techniques in order to sustain his performance, just as an actor presents a character to an audience. The discussions of these social techniques offered here are based upon detailed research and observation of social customs in many regions.

After spending more time than he can remember on his own inside a castle, an enigmatic man resolves to finally escape and seek human contact and daylight, both of which he has never experienced before. However, dissatisfied with what he finds on the outside, he hastens back to his old world inside his castle—to which he is now barred entry. First published in 1926, "The Outsider" is a short story by American horror writer H. P. Lovecraft that explores the concepts of loneliness and the Gothic ab-human. A fantastic example of Lovecraftian supernatural literature not to be missed by fans and collectors of his seminal work. Howard Phillips Lovecraft (1890–1937) was an American writer of supernatural horror fiction. Though his works remained largely unknown and did not furnish him with a decent living, Lovecraft is today considered to be among the most significant writers of supernatural horror fiction of the twentieth century. Other notable works by this author include: "The Call of Cthulhu", "The Rats in the Walls", and "The Shadow Over Innsmouth". Read & Co. is publishing this classic work now as part of our "Fantasy and Horror Classics" imprint in a new edition with a dedication by George Henry Weiss.

Drawing on both their own fieldwork from 1991 to 1999 and older written sources, Stewart and Strathern explore how the Duna

have remade their rituals and associated myths in response to the outside influences of government, Christianity, and large-scale economic development, specifically mining and oil prospecting. The authors provide in-depth ethnographic materials on the Duna and present many detailed descriptions of ritual practices that have been abandoned. *Remaking the World* is a timely contribution to the literature on agency and the making of cultural identity by indigenous peoples facing economic, social, and political change.

For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

'A stimulating, elegant yet pugnacious essay'—Observer In this highly acclaimed seminal work, Edward Said surveys the history and nature of Western attitudes towards the East, considering Orientalism as a powerful European ideological creation—a way for writers, philosophers and colonial administrators to deal with the 'otherness' of Eastern culture, customs and beliefs. He traces this view through the writings of Homer, Nerval and Flaubert, Disraeli and Kipling, whose imaginative depictions have greatly contributed to the West's romantic and exotic picture of the Orient. In the Afterword, Said examines the effect of continuing Western imperialism.

Grounded in advice from effective classrooms nationwide, enhanced with more than 40 video clips, *Reading Reconsidered* takes you into the trenches with actionable guidance from real-life educators and instructional champions.
