HZG9XY - BENTLEY CASSIDY

children could play out their problems if that same atmosphere could be created in a playroom. client-centered therapy (rogers, 1951) is rooted in the assumption that human beings have a powerful drive not only to solve their own problems, but to strive for self-actualization. Thus there Child-Centered Play Therapy (CCPT) is a type of play therapy most often used with young children, that involves nondirective play sessions where the child takes the lead and the main role of the therapist is to acknowledge how the child is feeling and what the child is doing, as well as ensure the child's safety (Swank et al., 2015).

Risë VanFleet, PhD, RPT-S, is President of the Family Enhancement and Play Therapy Center in Boiling Springs, Pennsylvania. She has trained thousands worldwide in the practice of child-centered play therapy and Filial Therapy, and is the author of numerous books, articles, and DVDs on these topics. Dr.

What is Play Therapy? Play therapy is to children what counseling is to adults. Play therapy utilizes play, children's natural medium of expression, to help them express their feelings more easily through toys instead of words.

Play therapy allows trained mental health practitioners who specialize in play therapy, to assess and understand children's play. Further, play therapy is utilized to help children cope with difficult emotions and find solutions to problems (Moustakas, 1997; Reddy, Files-Hall, & Schaefer, 2005).

Involving parents in child-centered play therapy. Therefore, child-centered play therapists do not direct children on how to resolve their problems or use interpretation with children to promote their growth. Instead, child-centered play therapists relate to children in the playroom in ways that demonstrate a firm belief that children learn...

What is Child-Centered Play Therapy? - Tribeca Play ...

Child-Centered Play Therapy (CCPT) is the method of play therapy developed by Virginia Axline, an associate of Carl Rogers. CCPT follows the principles of Client-Centered Therapy of creating a non-judgmental, emotionally supportive therapeutic atmosphere, but with clear boundaries that provide the child with psychological safety to permit the learning of emotional and behavioral self-regulation.

Child Centered Play Therapy (CCPT; Landreth, 1991; 2002; 2012) is a developmentally responsive, play-based mental health intervention for young children ages 3 to 10 who are experiencing social, emotional, behavioral and relational disorders.
