Physics Notes for Class 12 Chapter 9 Ray Optics and ...

Refraction: The phenomenon of the change in the path of light as it passes obliquely from one transparent medium to another is called refraction of light. Laws of Refraction: (i) The incident ray, normal at the point of incidence and refracted ray all lies in the same plane. (ii) For the same pair of media and the same colour of light, the ratio of the sine of the angle of incidence to the ...
