In his Pulitzer Prize-winning *God: A Biography*, Jack Miles offered a highly original approach to the character of the God of the

Old Testament, addressing him as a character in a book, a literary character. In *Christ, reading the New Testament but hearing it* If you think you're funny, and you want others to think so too, this is the book for you! Greg Dean examines the fundamentals of being funny and offers advice on a range of topics, including: writing creative joke material rehearsing and performing routines coping with stage fright dealing with emcees who think they're funnier than you are getting experience and lots more. Essential for the aspiring comic or the working comedian interested in updating his or her comedy routine, *Step by Step to Stand-Up Comedy* is the most comprehensive and useful book ever written on the art of the stand-up comedian.

This third book in the GIS-DATA series focuses on the widespread use of geographical information systems GIS in European local government. The editors include a wide range of applications carried out by different professional groups, and offer the opportunity of studying the extent to which diffusion of innovations like GIS are sensitive to national issues such as cultural context, institutional setup and the availability of data.; The book answers key questions such as: what can be learnt from research on organizational behaviour in relation to technological innovation?; what are the classical features of the GIS diffusion process?; to what extent is the adoption and utilization of GIS facilitated - or impeded - by the organizational culture within which it takes place?; and what mechanisms can be applied to enhance the diffusion of GIS? The book covers aspects of diffusion in the following European countries: UK, France, Italy, Poland, Denmark, The Netherlands, Germany, Greece and Portugal. An overview of complementary and alternative medicine discusses various treatments, including herbs and energy therapies, and examines how al-

ternative and conventional therapies can be combined to treat twenty common conditions.

DEADWEATHER, a sweaty little pirate-infested island, is home to EGG, thirteen years old and prey to a pair of cruel and stupid older siblings. But when Egg's family disappears in a freak accident, he finds himself living on SUNRISEIsland with the glamorous Pembroke family and their feisty daughter Millicent. Finally, life seems perfect. Until someone tries to throw him off a cliff. Suddenly, Egg is lost in a world of cutthroat pirates and powerful villains. Only Millicent - and a one-handed, possibly deranged cabin boy - can help him as he hurtles into the deadliest adventure of his life . . .

I hope that this book will inspire you to act. To make that move. To fulfill your vision. I want to take you closer to your goal, whether that be starting a billion-dollar unicorn, building a revolution, or just helping you better unders-

tand that change of any kind starts with you. You can be the Startup Hero. Startup Heroes are the ones that drive progress, and whether you bring us to another planet or make your neighborhood a nicer, happier place, you can become a Startup Hero. This book is the first step. It helps you take that first step. The step will be different for everyone. It might be to call that customer. It might be to draw up a design concept. It might be to talk to your boss. With this book, I hope to guide people to think big, drive change and go full speed ahead. I am giving them a pledge to do their work for good, and I am giving them some of the tools they need to accomplish their goals. This book is hard. It takes you through a variety of activities, questions, stories and challenges (even puzzles and poems) working both the right and left side of your brain and all the parts in between. The activities I propose are challenging and sometimes even embarrassing. The questions I ask are probing and provoking. The stories I tell are used as examples to guide you toward what I call Startup Heroism. So, why would you read this book? Well, I have worked

for 30 years for entrepreneurs. I have supported, funded and coached Startup Heroes all my working life. And I have tested the concepts of this book on the students at Draper University and they have come out to be some of the most interesting, dynamic, and motivated people the world has ever seen. In fact, we have had about 1000 students from over 60 different countries come through the program at this writing, and they have started more than 300 companies! I wrote this book so that some of the thinking that I applied to Draper University could be spread wider, in hopes that these messages would reach other potential Startup Heroes (maybe you) who might make an impact on the world, be proactive about their work, or at the very least, improve their lives. So, I implore you. Read this book, try this book, do this book, play this book, absorb this book, experience this book. It might surprise you. It might thrill you. It might drive you. It might kill you. At the very least, I hope it will give you a perspective on how real progress is made, and at the very best, it might just change your life.

From New York Times Bestseller Mimi Jean Pamfiloff comes SMART TASS, a new Romantic Comedy. He's the hot college quarterback all the girls want. She's the smart girl he loves to pick on. And now that they're all grown up, things are about to get geekin' ugly... My name is Tass. I'm smart, I'm driven, and I am determined not to let prankster Hunter Johnson continue raining on my parade. When we were little, he'd pull my hair and call me names. When we were teenagers, he'd throw food and tease me for being a flat-chested virgin. But now that we've ended up at the same college, he's out of his hot head if he thinks he can keep messing with my life. It's like he's fixated on me or something. Well, guess what, Mr. Amaze-football? I'm not that geeky little girl anymore and you do not screw with a smart woman. So what's my plan? It's definitely wild, and he's about to

1400 terms...1600 definitions...hundreds of web links so you can learn

more! This is the most comprehensive Ham Radio glossary ever compiled. Any pursuit that mankind might adopt quickly develops its own language, its proprietary jargon, its own semi-secret dialect fully understood only by its most avid and serious practitioners. The hobby of Amateur Radio, now entering its second century--and as vibrant and exciting as ever--is a good example. But now, for the first time, a complete and easy-to-use dictionary is available, ready for quick reference. This book, compiled by best-selling author, award-winning broadcaster, and active Ham enthusiast Don Keith N4KC, is intended for use by newcomers or those just getting interested in Ham Radio. But it is also a valuable resource for old-timers, too. New words pop up all the time whether it is on the air, in periodicals, or in Ham Radio groups. Technology and on-air operating events continually introduce new words into the lexicon. Hams have such a wide variety of options they may pursue that even the most active operators often need to quickly look up a term. The maker movement and maker faire popularity are

also attracting many newcomers to the hobby and this glossary is an invaluable asset to those as well. So here it is, THE Amateur Radio Dictionary, the most comprehensive glossary of Ham Radio terms ever compiled. Keep it near your operating position, use it when you encounter a term that is new to you. And get the most from this fascinating hobby!

In the midst of Trump's attacks on the media, comes this look at the rigorous, independent reporting of the year's most underreported news stories. While the country's president displays a brazen disregard for the First Amendment and routinely demonizes the press as "the enemy of the people," *Censored 2020* looks beyond Donald Trump's dizzying contempt for the truth to clarify the corporate media's complicity in misinforming the American public--while also providing a clear vision of a better future, based on rigorous, trustworthy independent reporting that presents a fuller picture of truth. With a discerning eye, *Censored 2020* focuses the public's attention on the most important but underreported news stories of 2018-2019. These stories expose the corpo-

rate news media's systemic blind spots while highlighting the crucial role played by independent journalists in providing the kind of news necessary for informed, engaged citizens. The book also examines this year's lowlights in "junk food news" and "news abuse"---further revealing how corporate news often functions as propaganda--as well as highlights of exemplary organizations that champion "Media Democracy in Action." Additional chapters address the importance of constructive journalism, the untold story of Kashmir, news coverage of LGBTQ issues in the Trump era, "fake news" as a Trojan horse for censorship, and online memes as a form of political communication.

Winner of the 2022 Broadcast Education Association Book Award One of the first books to examine the status of broadcasting on its one hundredth anniversary, *Radio's Second Century* investigates both vanguard and perennial topics relevant to radio's past, present, and future. As the radio industry enters its second century of existence, it continues to be a dominant mass medium with almost total listenership saturation de-

spite rapid technological advancements that provide alternatives for consumers. Lasting influences such as on-air personalities, audience behavior, fan relationships, and localism are analyzed as well as contemporary issues including social and digital media. Other essays examine the regulatory concerns that continue to exist for public radio, commercial radio, and community radio, and discuss the hindrances and challenges posed by government regulation with an emphasis on both American and international perspectives. Radio's impact on cultural hegemony through creative programming content in the areas of religion, ethnic inclusivity, and gender parity is also explored. Taken together, this volume comprises a meaningful insight into the broadcast industry's continuing power to inform and entertain listeners around the world via its oldest mass medium--radio.

"Providing readers with a robust, practical understanding of how young children build knowledge, this book offers a critical examination of the ways traditional homework fails young children, and how alternatives can better build collaborative engagement with families while supporting learning across all content areas. Grounded in culturally relevant practices, the first section breaks down the pedagogies that support deep learning, while later chapters emphasize the role of critical and creative thinking, project-based learning, and student choice in the develop-

ment of engaging, personally relevant home learning experiences. Embracing Alternatives to Homework in Early Childhood is a critical text for anyone seeking to reimagine homework practices as both equitable and agency-building in PreK-3"--

Rebecca Rusch is one of

the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete--climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Bor-

neo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet

again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. Rusch to Glory is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.
