10 Sites With Copyright Free Images for Commercial Use

Two common proposal methods for bidding on commercial construction jobs are the design-build proposal and the construction manager at-risk (CM at-risk) proposal. The design-build method combines the architect and contractor as a unified team that presents not only a price to build the project but also the cost of the architectural design.

For commercial projects, concrete offers a multitude of benefits. Contractors looking for a material that pairs strength and durability with style and versatility should consider concrete countertops, concrete sinks or other concrete enhancement options.
